

Whisper WP Sine XFR 12V/3000W Pure Sine Wave Inverter

Product price:

850,00 € tax excluded

Product description:

Whisper WP Sine XFR 12V/3000W Inverter

Whisper WP Sine XFR 12V/3000W is a sine wave inverter that ensures the operation of electrical devices up to 3000W powered by a 12V battery.

The compact and lightweight design makes the inverter ideal for use in camping, boating, cars or other places where a portable power source is needed. The Whisper WP Sine 12V/3000W inverter can be powered by a 12V battery and offers a continuous output power of 3000 W. This means that you can safely and reliably power many types of electrical devices, including laptops, cell phones, televisions and other similar items.

The device is equipped with an efficient current transformation technology called XFR, which makes the inverter compact and lightweight without compromising the power and quality of the sine wave. In this way, the inverter can also be used in mobile areas, such as RVs and boats, without taking up too much excessive space.

Whisper WP XFR 12V/3000W uses pure sine wave technology, which is ideal for powering devices that require a stable and reliable power supply. It has a number of protection features, including overheat protection, overcurrent protection and short-circuit protection. This means the Whisper WP Sine XFR 12V/3000W inverter is able to provide safe and reliable power without risk to the user or connected devices. Pure sine wave technology ensures constant and stable current quality, which means that devices powered by Whisper WP Sine XFR 12V/3000W will always operate reliably.

The Whisper WP Sine XFR 12V/3000W inverter is the ideal choice for those looking for a powerful, reliable and compact device to convert their battery's direct current into high quality and safe pure alternating current.

General Benefits

- Stable frequency power output
- Also suitable for sensitive devices Remarkably compact and lightweight easy to install
- Rugged, protected against overheating, overuse and short-circuiting
- Outstanding value for money and quiet operation

Technical characteristics Whisper WP Sine XFR 12 V / 3000 W

Peak power: 6000 W

Continuous power: 3000 W

Output voltage: 230 V

Output frequency: 50 Hz

Input voltage: 12 VDC

AC Sockets: 1 x Schuko

DC battery connection: M8 threaded screw

Operating ambient temperature: -20°C / 55°C

Max. relative humidity: 95%, non-condensing

Cooling: Forced ventilation

Width: 539 mm

Length: 230 mm

Height: 114 mm

Weight: 6.9 kg

Are you looking for a product with different technical characteristics? [HERE](#) you can find the area dedicated to Whisper inverters or those of otherspecialized brands.

The images and technical data are not binding and may be subject to revisions by the manufacturer.

Product features:

Frequency (Hz): 50

Output voltage (V): 230

Length (mm): 539

Width (mm): 230

Height (mm): 114

Input voltage (V): 12

Kind of wave: Pure Sinusoidal

Continuous power (W): 3000

Weight (Kg): 6.9
