Product description:

WHISPER M-GV8 MARINE GENERATOR 8KVA SINGLE-PHASE INVERTER STAGE V

WHISPER M-GV8 Single-phase marine generator with Kubota Z482 StageV diesel-powered engine delivers 8KVA, complete with INVERTER voltage regulator.

The WHISPER M-GV8 marine generator is designed with a soundproof cabin that makes it supersilenced. Excellent accessibility to the interior compartment makes maintenance work easier even with the genset installed in cramped quarters.

WHISPER M-GV8 is a combination of a diesel engine with an integrated alternator and an inverter, hence the name Genverter. The key feature of this technology is the output quality combined with the peak power capacity. Within a certain window of the diesel engine's rotational speed, the PMG provides the correct quality to run electrical equipment, such as tools, compressors, washing machines, air conditioning, electric cooking devices, and various other AC appliances.

Featuring a compact and lightweight design, the Whisper M-GV8 is easy to install and operate, taking up minimal space on board. Using Inverter Stage V technology, the generator WHISPER M-GV8 is highly efficient and offers consistent power distribution, reducing fuel consumption and noise and vibration levels.

VOLTAGE REGULATOR

WHISPER M-GV8 is equipped with an Inverter, which, when mounted on an alternator, allows a generator WHISPER M-GV8 to stabilize the output voltage and does not ruin sensitive connected electronic equipment. In the modern market, inverters have taken a huge step forward in technology and performance; therefore, the world's top genset and alternator brands are moving

along this line of thinking.

STAGEV EMISSIONS REGULATIONS

The WHISPER M-GV8 Marine Generator is equipped with "mobile" STAGEV engines, as required by European Regulation 2016/1628. These new motorizations make it possible to exponentially reduce the particulate and nitrogen oxide emissions delivered by the generator WHISPER M-GV8 to the environment, and ensure a 200% reduction in environmental impact compared to standard motorizations.

Specifications WHISPER M-GV8

Phase Type: Single Phase

Maximum Power: 8.5 KVA / 6.4 KW

Continuous Power: 8 KVA / 6 KW

Fuel: Diesel

Voltage: 230 V

Frequency: 50 Hz

Engine: Kubota Z482

Emission standard: Stage V / EPA / Tier 4

Number of cylinders: 2

Displacement: 479 cc

Engine RPM: 2400 / 2800 rpm Adjustable

Fuel consumption: 2.5 l/h at 100% load

Acoustic power: 56 dBA @ 7 m

Voltage regulator: Inverter

Length x width x height (generator): mm 655 x 545 x 600

Length x width x height (PMG): mm 436 x 196 x 148

Dry weight (generator + PMG): 154 + 9.9 kg

Product features:

Phase: Single phase

Maximum power single phase (KW): 6.4

Continuous power single phase (KW): 6

Maximum power single phase (KVA): 8.5

Continuous power single phase (KVA): 8

Fuel: Diesel

Frequency (Hz): 50
Voltage (V): 230
Engine: KUBOTA Z482
Emissions Regulations: Stage V / EPA / Tier 4
Engine rpm (rpm): 2400 / 2800 Adjustable
Engine capacity (cm³): 479
Number cylinders: 2
Cooling: Water
Consumption (L/h): 2.5 l/h at 100% load
Acoustic pressure: 56 dB(A) at 7 m
Length (mm): 655
Width (mm): 563
Height (mm): 600
Dry weight (Kg): 154
Silenced: Yes
Super silenced: Yes
Product type: Generator
Voltage regulator: Inverter
Engine manufacturer: Kubota
