Product description:

WHISPER M-SQ PRO15 SINGLE-PHASE MARINE GENERATOR 15KVA AVR

WHISPER M-SQ PRO15 Single-phase marine generator with Kubota V1505 BG engine powered by diesel, delivers a power of 15KVA, **complete with AVR voltage regulator.**

The marine generator is standard equipped with a robust acoustic capsule with anti-corrosion metal plating and insulating material for optimal sound reduction. The hearing protector features easy access to all sides of the marine generator and offers access to all maintenance-related components from one side only.

Each WHISPER M-SQ PRO15 is designed for non-stop operation at 1500 rpm in difficult conditions. The engine is water-cooled and kept at a constant temperature via a heat exchanger.

Thanks to the AVR technology electrical stabilizer that works at very low distortion, WHISPER M-SQ PRO15 delivers constant current loads without voltage peaks that could damage electrical and electronic devices. A further advantage of the inverter is that it works with variable motor revolutions, based on the need for the current to be supplied, optimizing fuel consumption, gas emissions and wear of the mechanical parts in the best possible way. Automatically operate air conditioning/heating systems, heavy tools, compressors, cookers, lights, refrigeration and cooling systems, computers and more. All at the same time, depending on the load.

The Whisper M-SQ Pro15 was designed to work efficiently and reliably in marine environments, thanks to its rust-free, corrosion-resistant and saltwater construction. Furthermore, the marine generator is very silent and offers a low emission of polluting substances, guaranteeing to provide an ecologically sustainable solution.

AVR VOLTAGE REGULATOR

WHISPER M-SQ PRO15 is equipped with AVR which, mounted on an alternator, allows a marine generator to stabilize the output voltage and does not damage the connected sensitive electronic devices. In the modern market, AVR have made a huge step forward in terms of technology and performance; for this reason the best brands of generator sets and alternators in the world are moving along this line of thought.

An important feature of the SQ Pro range is the 7 inch color touch screen control which will be linked with WhisperCare. This allows complete control of the M-SQ Pro15 system. A perfect solution for instantaneous and/or historical information with an attractive display.

DeepSea Control Features (Optional)

- Group parallel functionality included (ask for more details)
- Provides secure and easy offsite monitoring (optional)
- Allows you to quickly resolve fault conditions and provide instant system information to aid in preventive maintenance
- Graphic displays showing, graphs, meters, power display, graphs and engine status information
- The information is displayed clearly and in a universal format for all users
- Language of your choice

Technical characteristics WHISPER M-SQ PRO15:

Phase Type: Single Phase

Maximum Power: 15.6 KVA / 12.5 KW

Continuous Power: 15 KVA / 12 KW

Fuel: Diesel

Voltage: 230 V

Frequency: 50 Hz (60 Hz)

Engine: Kubota V1505 BG

Emissions standard: Not Emissions

Number of cylinders: 4

Engine speed: 1500 rpm

Power acoustics: 55 dBA

Voltage regulator: AVR

Length: 1145 mm

Depth: 625 mm

Height: 690 mm

Net weight: 410 Kg

Non-binding images and technical data.

Product features:

Phase: Single phase

Maximum power single phase (KW): 12.5

Continuous power single phase (KW): 12

Maximum power single phase (KVA): 15.6

Continuous power single phase (KVA): 15

Fuel: Diesel

Frequency (Hz): 50 / 60

Voltage (V): 230

Engine: Kubota V1505 BG

Emissions Regulations: Not Emitted

Engine rpm (rpm): 1500

Number cylinders: 4

Cooling: External radiator cooling

Acoustic pressure: 55 dB(A)

Length (mm): 1145

Width (mm): 625

Height (mm): 690

Dry weight (Kg): 410

Silenced: Yes

Super silenced: Yes

Product type: Generator

Voltage regulator: AVR

Engine manufacturer: Kubota
