Product description:

OSMOSEA NEW12S 65 NAUTICAL WATERMAKER 65 LT/H

The OSMOSEA NEW12S 65 watermaker is a one-piece reverse osmosis system equipped with 1 2540 carbon vessel, capable of providing up to 65 lt/h of fresh water.

The OSMOSEA NEW12S 65 marine watermaker gives you the opportunity to have clean fresh water wherever you are in the open sea. Using reverse osmosis technology, this watermaker removes salt and other impurities from seawater to provide you with fresh drinking water in quantities of up to 65 liters per hour.

The OSMOSEA NEW12S 65 is designed to be safe and reliable, ensuring your peace of mind on the open sea. Equipped with an automatic water quality monitoring system, this marine watermaker automatically shuts down in case of malfunction to avoid any risk of contamination. In addition, with its robust construction and low maintenance, this nautical watermaker is a long-term investment for your boat.

With the OSMOSEA NEW12S 65, you don't have to worry about finding a source of fresh water when you are out at sea. OSMOSEA NEW12S 65 is easy to install and can be used in any situation, from anchoring to sailing on the high seas. In addition, with its fresh water production capacity, you can always have fresh water for cleaning and cooking, eliminating the need to carry bottled drinking water.
