Product description:

GENERAC CTF 10M LIGHTING TOWER 4x320 W MULTILED

The Lighting Tower GENERAC CTF 10M is the tallest in its class, equipped with four 320W MultiLED projectors, capable of illuminating an area of 5000 square meters with a light intensity of 184000 lm.

The GENERAC CTF 10M Lighting Tower is designed to provide maximum power and reliability in any working environment. The rugged, weather-resistant design ensures that the Lighting Tower can be used in all weather conditions, making it the ideal solution for construction sites and outdoor industrial activities.

The GENERAC CTF 10M is equipped with a manual lifting system, allowing the maximum extension of 10 meters in height. Easy to install and use, thanks to its compact and lightweight design, the Lighting Tower can be easily transported from place to place, providing the necessary illumination wherever it is required.

The CTF 10M Lighting Tower is equipped with a number of advanced safety features, ensuring maximum protection for operators and end users. In addition, thanks to its state-of-the-art LED technology, the Lighting Tower consumes less energy than traditional light towers, reducing operating costs and environmental impact. With the GENERAC CTF 10M Lighting Tower, you can light your construction site safely and efficiently, saving money and reducing your carbon footprint.

TECHNICAL CHARACTERISTICS GENERAC CTF 10M

Lamp power: 4 x 320 W
Total lumens: 184000 Lm
Illuminated area: 5000 m²
Lifting type: Manual

Pole rotation: 340°

Lamp type: LED

Power plug (A/V/Hz) 16/220/50 - 16/240/60

Power plug (A/V/Hz) 16/220/50 - 16/240/60

Wind resistance: 80 km/h

Minimum dimensions (W x D x H): 1150 x 1150 x 2552 mm

Maximum dimensions (W x D x H): 1903 x 1903 x 10000 mm

Net Weight: 392 kg

Looking for a Lighting Tower with different features? [HERE](#) you can find the full range of towers from GENERAC or other specialized brands.

Product features:

Type of lamps: LED

Lamps: 4 x 320 W

Illuminated area (m²): 5000

Total lumens (Lm): 184000

Lifting System: Manual lifting system

Maximum height (m): 10

Mast rotation: 340°

Open size (mm): 1903 x 1903 x 10000

Closed size (mm): 1150 x 1150 x 2552

Transportability: Stationary

Stability to wind (Km/h): 80 Km/h

Feed Type: Single-Phase

Weight (Kg): 392
