Product description:

AIR CONDITIONER RENTAL 25000BTU/H - Turin and Italy

AIR CONDITIONER RENTAL is the most effective and convenient solution to quickly remove heat and humidity from working environments, improving the well-being and efficiency of operators.

Each AIR CONDITIONER RENTAL are independent with no need for external units. Therefore, it does not require installation time and costs. A simple click is all it takes to generate a noiseless flow of cold air concentrated on a specific area, both indoors and in specific work areas outdoors, offering high cooling efficiency even at great distances from the unit.

The air conditioner is equipped with a pair of extendable and flexible conveyors that allow to canalize the cold air at any angle, reaching even difficult and narrow environments with the possibility to cool different areas at the same time.

Included with the rental will be supplied to the hot air hose of diameter 40 cm and length 10 m.
