

RENTAL HOT / COLD AIR CONDITIONER 13000BTU

Product description:

RENTAL HOT / COLD AIR CONDITIONER 13000BTU

Conditioner 13000 BTU with cooling, heating, smart functions, Wi-Fi connectivity and complete with remote control.

The air conditioner is a versatile option for cooling or heating the environment with a unique design and powerful internal features. It provides excellent cooling performance, ensuring immediate comfort and silence. It is a valuable ally even in the transitional seasons when the heating function is off. The presence of the heat pump allows year-round use, making it a versatile appliance adaptable to different climatic needs.

A distinctive feature of this air conditioner is the ability to use it remotely thanks to the integrated Wi-Fi connectivity. This allows for controlling and adjusting the air conditioner even from a distance.

The air conditioner is equipped with a motorized upper flap with wide automatic oscillation, which can be manually controlled via the digital control panel or the multifunction remote control. The LED display provides a clear indication of the selected settings and functions.

Among the numerous available functions, there is the "Auto" mode that automatically selects the operating mode based on the set temperature, ensuring optimal comfort. The "Intelligent Pre-heating" function prevents the air from being released into the environment until it reaches the desired temperature, ensuring uniform heating.

Other useful functions include the "Swing" mode for automatic oscillation of the air outlet flap, the "iFeel" function that maintains the desired temperature at the point where the remote control is positioned, the "Sleep" mode for comfort during sleep, and the "Memory" function that automatically restores settings after a blackout.

The air conditioner offers a 3-speed fan, with the option to select the desired speed or set the "Auto" mode to automatically adjust the fan speed based on ambient conditions. Additionally, it has self-diagnosis functions that display any errors on the screen, simplifying maintenance operations.

The air conditioner comes complete with a flexible hose, window adapter, and kit for fixed glass installation, allowing for easy and quick installation.

Rental Service

Renting an industrial air conditioner has never been easier: choose the product you want to rent and FILL OUT THE FORM

Technical Specifications of the Portable Air Conditioner

Cooling Capacity: 13000 BTU / 3500 W

Heating Capacity: 13000 BTU / 3500 W

Power Supply: 230V

Frequency: 50 Hz

Fan Speed: 3 + Auto

Air Flow: 280 / 330 / 380 m³/h

Sound Power Level: 65 dB(A)

Power Consumption: 1.34 KW

Refrigerant: R290

Width: 385 mm

Depth: 405 mm

Height: 835 mm

Net Weight: 35 Kg
