Product description:

Dometic PerfectView M75LX 7" Heavy-Duty LCD Monitor

The Dometic PerfectView M75LX 7-inch LCD monitor offers outstanding high definition and 360-degree viewing, complete with distance markers

The heavy-duty Dometic PerfectView M75LX 7" LCD monitor is an excellent tool for viewing in challenging conditions. This rugged digital monitor features Analog High Definition (AHD) technology, ensuring exceptional image quality in any lighting situation. The energy-efficient LED backlighting provides bright and uniform illumination, further enhancing the visual experience.

Its compact size makes it ideal for use during maneuvers, providing a clear and detailed view that contributes to safety. The analog high-definition technology delivers quality comparable to L-series models, but the Dometic PerfectView M75LX offers three distinct advantages.

Firstly, it has four camera inputs, allowing for a 360-degree view of the surrounding environment. This feature is particularly useful for those maneuvering heavy vehicles or in tight spaces, enabling control over every angle and ensuring maximum safety.

The Dometic PerfectView M75LX monitor is equipped with distance markers that highlight danger zones, helping the operator calculate distances accurately and prevent accidental collisions. This function is crucial in environments with limited visibility.

The removable sunshade minimizes glare, ensuring that the image on the screen remains clear and easily readable even in direct sunlight or other distracting light sources.

TECHNICAL SPECIFICATIONS DOMETIC PERFECTVIEW M75LX

Input Voltage: 12/24 Vdc

Camera Inputs: 4

Brightness Compensation: Automatic via LDR
Image Brightness: 800 cd/m²
Resolution: 614000 px
Video Standards: PAL/NTSC Auto
Vibration Resistance: 6 g
Protection Class: IP40
Depth: 26 mm
Height: 110 mm
Width: 190 mm
Net Weight: 0.40 kg
