

VARMA INFRARED SPACE HEATER 306 MOBILE

Product price:

280,00 € tax excluded

Product description:

Varma Infrared Heater: Innovation and Efficiency for Your Comfort

The Varma Infrared Heater 306 is the ideal solution for those seeking efficient and versatile heating. Designed to fit both indoor and outdoor spaces, this model is a perfect example of technology and design serving comfort.

Main Features:

- Electric Cable Model: Equipped with a 3-meter cable for special installations, Varma suits various space configurations.
- Robust Structure: Made of die-cast aluminum, with a symmetrical 72° parabola, it provides optimal heat distribution.
- Elegant Design: Its optical black color makes it an elegant addition to any setting.
- Versatility of Use: Ideal for homes, offices, shops, museums, exhibitions, verandas, bars, and hotels.
- Power and Efficiency: With a 2000 Watt output, it heats areas of 15 to 20 sqm, ensuring optimal thermal comfort.
- Guaranteed Safety: The IPX5 protection index certifies the heater as waterproof, resistant to rain and water splashes.
- Accessorized for Maximum Comfort: Includes an adjustable telescopic support, electric cable, Schuko plug, switch, and stainless steel grid.
- Practical Dimensions: Measuring 49 cm x 12 cm x 10 cm, it is compact and easy to place.

The Infrared Heater Varma 306 with Tripod2 - An Innovative Floor Model

The Varma 306 with Tripod2 model (code V306MOB/20X5) represents excellence in infrared heating. With a 2000 Watt power and an IPX5 protection index, it is the ideal choice for those seeking reliability and high performance.

Where to Use the Varma Infrared Heater?

This heater is designed for a wide variety of environments. Whether you want to heat your living

room, your office, or provide a comfortable environment for your bar or hotel customers, Varma is the right choice.

Safety and Patented Design

Thanks to Star Progetti's patent, the Varma Infrared Heater is a guarantee of safety and quality. Its waterproof technology makes it resistant to atmospheric agents, ensuring durability and reliability.
