Product description:

VITRIFRIGO POWER SUPPLY 24Vdc/300W115/230Vac

The VITRIFRIGO 24VDC/300W 115/230 VAC Power Supply is an essential accessory designed to enable the efficient and safe use of all Vitrifrigo products via direct current.

With its ability to convert alternating current (AC) to battery voltage (DC), this power supply ensures reliable 24Vdc power, ensuring optimal operation of devices even during travels on boats or campers, where energy availability may be limited.

The VITRIFRIGO Power Supply device is equipped with an advanced electronic circuit that protects against current overloads, ensuring the safety of connected appliances. Its automatic switching between different power sources makes usage extremely practical and convenient.

With its compact dimensions, measuring 115 mm wide, 50 mm tall, and 215 mm deep, the VITRIFRIGO easily integrates into any environment. Its sturdy construction and the reliability of the materials used ensure long-lasting durability, allowing you to fully enjoy the performance of VITRIFRIGO products in any situation, whether traveling or on land. Thanks to this VITRIFRIGO power supply, you can keep your favorite foods and beverages fresh, ensuring a consistently high standard of quality and freshness wherever you are.
