

# Generator HYBRID EcoPower EPH454843

## Product description:

Generator HYBRID EcoPower EPH454843 energy storage system in Battery

Generator HYBRID EcoPower EPH454843 energy storage system saves you money and reduces pollution

ZERO emissions, ZERO noise, ZERO liquids

ECO powered by CGM Thanks to its innovative technology, HYBRID EcoPower Generator EPH454843 guarantees zero

emissions, zero noise and zero liquids, offering you a sustainable and environmentally friendly solution.

Advantages of the HYBRID EcoPower EPH454843 Generator

Energy saving: HYBRID EcoPower Generator allows you to reduce your energy consumption, thanks to its ability to store energy

produced from renewable sources or the electricity grid.

Reduction of emissions: HYBRID EcoPower Generator EPH454843 battery helps reduce air pollution, thanks to its zero emissions.

Flexibility: HYBRID EcoPower Generator HYBRID EPH454843 can be used in a variety of applications, from residential to industrial.

Applications of EcoPower HYBRID Generator EPH454843

EcoPower HYBRID Generator EPH454843 is ideal for a wide range of applications, including:

---

Emergency power supply: EcoPower HYBRID EPH454843 Generator can provide power in the event of a blackout, ensuring continuity

of service.

Reactive energy compensation: EcoPower HYBRID generator EPH454843 can help improve the stability of the electricity grid

by compensating the reactive energy produced by inductive loads.

Energy exchange with the grid: EcoPower HYBRID EPH454843 EcoPower HYBRID Generator can be used to exchange energy

with the electricity grid, resulting in an economic gain.

HYBRID EcoPower generator EPH454843 powered by CGM: the sustainable solution for your future.

HYBRID EcoPower generator EPH454843 is the ideal solution for those who want to save money, reduce pollution and use energy

in a sustainable way.

#### **Technical data HYBRID EcoPower EPH454843 generator:**

Rated power: 45 KVA

Storage capacity: 48 KWh

Generator capacity: 43 KVA PRP

Generator model: YANMAR 4TNV88CT

Frequency: 50 Hz

Voltage: 400 volts

Weight: 2200 kg

Dimensions: TDB

Battery type: LINMC

Quantity: 2

Cycles @ 90%=6000

Recharge Time: 20-90%=1.10Hr/20-100%=1.20Hr

The innovative technology of the HYBRID EcoPower EPH454843 Generator makes it a sustainable and environmentally friendly

solution that helps reduce air pollution.

Generator HYBRID EcoPower EPH454843 is a solution that saves you money and reduces your company's environmental impact,

contributing to a more sustainable future.

The batteries of the HYBRID EcoPower EPH454843 Generator are made of lithium-nickel-manganese-cobalt (NMC),

a state-of-the-art technology that guarantees a long service life.

The HYBRID EcoPower EPH454843 Generator is a reliable solution that guarantees uninterrupted power supply,

even in the event of a blackout.

The HYBRID EcoPower EPH454843 Generator is a sustainable solution that helps reduce air pollution, improving the

quality of the air we breathe.

"The generator is powered by a Yanmar 4TNV88 diesel engine, a reliable and powerful engine that guarantees

high performance.

#### **Product features:**

Phase: Three phase

Continuous power three phase (KW): 48

Continuous power three phase (KVA): 45

Fuel: Batteria

Frequency (Hz): 50

Battery type: LINMC

Super silenced: Yes

Weight (Kg): 2200

Recharge times: 20-90%-1.10Hr/20-100%-1.20Hr

Voltaggio: 400volt

modalità UPS: Yes

Generator capacity: 43 KVA PRP
