Product description:

Dometic ACC3100 Roof Ventilator

Dometic ACC3100 Roof Ventilator, imagine a ventilation system that not only cools the air in summer and warms it in winter, but also reduces the energy consumption of your motorhome. The Dometic ACC3100 Roof Ventilator is the revolutionary solution that turns your motorhome into an oasis of comfort and convenience.

Intelligent heat recovery: The Dometic ACC3100's innovative heat recovery system captures heat energy from the outgoing stale air and uses it to pre-heat the incoming fresh air. In summer, the process reverses, cooling the incoming fresh air to lighten the load on your air conditioner.

Dometic ACC3100 State-of-the-art technology: Equipped with intelligent sensors, the Dometic ACC3100 monitors air quality and automatically adjusts the ventilation speed to maintain a healthy and comfortable indoor environment.

Stylish and functional design: The low-profile rooftop unit is compact, lightweight and aerodynamic, blending perfectly with the design of your motorhome. The integrated LED light strip creates a pleasant and relaxing atmosphere.

The advantages of the *Dometic ACC3100 Roof Ventilator:*

Perfect climate in every season: Intelligent heating and cooling for constant comfort.

Energy saving: Reduced energy consumption for heating and cooling.

Intelligent sensors: Constant monitoring of air quality for optimal ventilation.

Stylish and functional design: Compact, lightweight and aerodynamic with integrated LED lighting.

Choose the Dometic ACC3100 Roof Ventilator and turn your motorhome into a comfortable, efficient and cost-saving environment.

Technical specifications *Dometic ACC3100 Roof Ventilator:*

product depth: 553 mm

product height: 220 mm

product width: 537 mm

Net weight: 7 kg

Input voltage: 12 V

Maximum input power: 7.6 W

Maximum power consumption: 0.18 kWh/ 24H 15.2 Ah

Minimum power consumption: 0.06 kWh 24H - 4.9Ah / 24H

Operating temperature range: -20 °C (-4 °F)... 70 °C (158 °F)

Protection class: IPX4

External fuse: 3 A

Ceiling vent opening: 150 cm²

Dimensions roof unit (W x L x H) 542.6 x 553 x 127 mm

Dimensions of air distribution unit (D x W x H) 517.6 x 517.6 x 46 mm

Roof thickness 23 ... 60 mm

Noise level outside 43 dB(A)

Interior noise level 52 dB(A)

Interior noise level (sleep mode) 35 dB(A)

Ventilation 30 ... 50 m³/h

Heat recovery efficiency 72 ... 87
