Product description:

VITRIFRIGO C75LA with cold-storage plate

VITRIFRIGO C75LA is a refrigerator with a total capacity of 75 liters, complete with a freezer compartment and Steelock OCX2 locking system. VITRIFRIGO C75LA meets all space and capacity needs.

Designed to transform the refrigerator into an elegant furnishing accessory, it stands out for its sober and refined style.

VITRIFRIGO C75LA offers ample storage space of up to a maximum of 75 liters and great ease of access from every angle.

The internal space can be optimally utilized thanks to the presence of easily removable baskets. VITRIFRIGO C75LA is equipped with a square-closed door.

With a single mounting profile, it is possible to position the refrigerator with the door facing outward or inward by simply translating the profile itself, which also features a recessed handle to optimize perimeter ventilation.

In the top panel of VITRIFRIGO C75LA, a device has been inserted that allows activating the "Vent Position",

which means the possibility of leaving the door slightly open when not in use, thus avoiding the formation of mold and unpleasant odors.

Technical Specifications VITRIFRIGO C75LA:

Total capacity liters: 75

Freezer capacity liters: 10.2

Net weight: 20 Kg

Power supply: 12/24Vdc (also available with 12/24Vdc - 100-240Vac 50/60Hz bivalent unit)

Nominal consumption: 40W

Width: 470 mm

Height: 622 mm

Depth: 460 mm

Panel color: black / gray

Also available in "refrigerator only" version (without freezer compartment): yes (only C75L version)

Reversible door: yes

The satin stainless steel with which the VITRIFRIGO C75LA refrigerator is built is resistant to stains and easy to clean.

The Airlock closure system ensures a perfect seal of the door, preventing the dispersion of cold and the formation of mold and unpleasant odors.

This allows keeping food fresh and flavorful for several days.
