### **Product description:**

#### VITRIFRIGO C90DW DRAWER FRIDGE-FREEZER

The VITRIFRIGO C90DW is a drawer refrigerator belonging to the AIRLOCK series. This series stands out for its innovative Airlock closing system designed to simplify and integrate various functions, ensuring optimal user experience. One of the innovative solutions offered by this refrigerator is the positive door closure, preventing accidental openings and ensuring enhanced safety.

Moreover, the VITRIFRIGO C90DW features fast door reversibility, allowing easy adaptation to surrounding environments.

The integrated "vent position" system keeps the door slightly open to prevent the formation of unpleasant odors and mold during periods of non-use.

The AIRLOCK series also offers customization options like Easy custom and optional D power system, ensuring flexibility and adaptability to users' specific needs.

With a total capacity of 90 liters and a freezer capacity of 9.1 liters, the VITRIFRIGO C90DW provides ample storage space for food and beverages.

The AIRLOCK series is characterized by its bicolor design, available in Light Grey and Black, both with a matte finish door panel, adding a touch of elegance and modernity to the refrigerator.

The nominal consumption of 45W and a range of advanced features, including a stainless steel drawer and a new high-intensity LED lighting system, make the VITRIFRIGO C90DW an ideal choice for those seeking a high-quality refrigerator with sophisticated design for the preservation of their precious food items.
