## **Product description:**

### VITRIFRIGO C35BT FREEZER

The VITRIFRIGO C35BT is a freezer (external refrigerating unit) belonging to the prestigious AIRLOCK series by VITRIFRIGO.

The innovative Airlock closure system, developed to simplify and integrate various functionalities, makes this product a cutting-edge choice, increasingly functional and easy to use.

The Airlock system of the VITRIFRIGO C35BT offers four innovative solutions: a positive door closure to prevent accidental openings; a single fixing profile, both for the total built-in version (door inside) and for the partial built-in version (door outside); rapid door reversibility thanks to accurate design; and an integrated "vent position" system to keep the fridge door slightly ajar and prevent the formation of unpleasant mold odors during periods of non-use. These distinctive features of the VITRIFRIGO C35BT make it an excellent choice for those seeking a high-quality freezer with reliable performance.

The new series of refrigerators/freezers and freezers stands out for its essential and elegant bicolor aesthetic, available in two versions: Light, with a luminous pearl gray tone, and Dark, which offers ample chromatic contrast.

The VITRIFRIGO C35BT has a total capacity of 33 liters and a net weight of 19 kg. It is powered by 12/24Vdc (also available with a bivalent 12/24Vdc - 100-240Vac 50/60Hz control unit) with a nominal consumption of 38W. Its total dimensions are 390 mm in width, 547 mm in height, and 397 mm in depth, with two compartments and a reversible door.

The Airlock system is included as standard equipment with the option to add the optional profile for even easier panel customization. Furthermore, with the new profiles,

panel customization is made even simpler thanks to the Easy custom system. The bivalent D power control unit is included as standard, offering power supply flexibility to adapt to various needs.

In conclusion, the VITRIFRIGO C35BT represents an excellent choice for those seeking a reliable, innovative freezer with superior performance, enriched by the advanced technological solutions of the AIRLOCK series by VITRIFRIGO.

### **Technical characteristics VITRIFRIGO :**

Total capacity litres: 33

Net weight: 19 Kg

Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption: 38W

Total width: 390 mm.

Total height: 547 mm.

Total depth: 397 mm.

Compartments: 2

Reversible door: yes

Looking for a cockpit freezer with different technical characteristics? Here you can find the full range VITRIFRIGO or other specialized brands.

The images and technical data are not binding and may be subject to revisions by the manufacturer.

### **Product features:**

Input power (W): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Length (mm): 397

Width (mm): 390

Height (mm): 547

Dry weight (Kg): 19

Product type: Congelatore

Capacity of the refrigerator (L): 33

Compartments: 2

Reversible door: Yes
