Product description:

VITRIFRIGO C55BT FREEZER

The VITRIFRIGO C55BT is a freezer (external refrigerating unit) belonging to the prestigious AIRLOCK series by VITRIFRIGO.

The new Airlock closure system has been designed to simplify and integrate various functions, offering an increasingly functional and easy-to-use product.

This freezer, VITRIFRIGO C55BT, features four innovative solutions: a positive door closure to prevent accidental openings; a single fixing profile, both for the total built-in version (inside) and for the partial built-in version (outside), ensuring rapid door reversibility, and an integrated "vent position" system to prevent the formation of unpleasant mold odors during periods of non-use. The AIRLOCK series stands out for its essential and elegant bicolor aesthetic, available in Light and Dark versions.

The VITRIFRIGO C55BT has a total capacity of 56 liters and a net weight of 26 kg. It is powered by 12/24Vdc (optionally available with a bivalent 12/24Vdc - 100-240Vac 50/60Hz control unit) with a nominal consumption of 38W. The overall dimensions are 470 mm in width, 622 mm in height, and 460 mm in depth, with three compartments and a reversible door.

The Airlock system is included as standard equipment with the possibility of adding the optional profile for greater panel customization.

Furthermore, with the new profiles, panel customization is made even simpler thanks to the Easy custom system.

You can also opt for the bivalent D power control unit, offering greater power supply flexibility.

In conclusion, the VITRIFRIGO C55BT is a cutting-edge choice for those seeking a high-quality, reliable freezer with superior performance, enriched by the advanced technological solutions of the VITRIFRIGO AIRLOCK series.

Technical characteristics VITRIFRIGO C55BT :

Total capacity litres: 33

Net weight: 19 Kg

Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption: 38W

Width: 390 mm.

Height: 547 mm.

Depth: 397 mm.

Compartments: 2

Reversible door: yes

Looking for a cockpit freezer with different technical characteristics? Here you can find the full range VITRIFRIGO or other specialized brands.

The images and technical data are not binding and may be subject to revisions by the manufacturer.

Product features:

Input power (W): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Length (mm): 460

Width (mm): 470

Height (mm): 622

Dry weight (Kg): 26

Product type: Congelatore

Capacity of the refrigerator (L): 56

Compartments: 3

Reversible door: Yes
