Product description:

VITRIFRIGO C150MP SINGLE DOOR FRIDGE-FREEZER

The VITRIFRIGO C150MP monoport series is an excellent solution for large pleasure boats, designed to offer practicality and functionality without compromises.

These built-in white refrigerators are designed to meet the needs of yacht and boat enthusiasts, offering generous refrigerated spaces and an elegant design that integrates perfectly into the interiors of boats.

With a total capacity of 125 liters and a 15-liter freezer, the VITRIFRIGO C150MP ensures ample space to store food and drinks, allowing users to enjoy long days at sea without worries. Weighing just 29 kg, this refrigerator is lightweight and easy to install even on larger boats.

The 12/24Vdc power supply ensures perfect adaptability to the needs of the marine environment, guaranteeing reliable operation even during long voyages. Additionally, the VITRIFRIGO C150MP

is also available with a dual 12/24Vdc - 100-240Vac 50/60Hz control unit, offering flexibility for both marine and land use.

Despite its compact size, the VITRIFRIGO C150MP offers optimal performance, with a nominal consumption of only 58W, ensuring excellent energy efficiency to extend battery life on board.

With a total width of 595 mm, a height of 818 mm, and a depth of 545 mm, it is suitable for installation in limited spaces without compromising storage capacity.

The reversible door adds further versatility to this refrigerator, allowing it to be easily adapted to the specific space and layout requirements of the boat. Thanks to its reliability, advanced functionality, and elegant design, the VITRIFRIGO C150MP confirms itself as an ideal choice for those who want a high-quality

built-in refrigerator for their boat or yacht.
