Product description:

VITRIFRIGO C29M FRIDGE-FREEZER

The VITRIFRIGO C29M offer an excellent solution for portable refrigeration and special installation needs.

Designed for dedicated compartments, these refrigerators and freezers combine versatility, robustness, and efficiency in a range of models with different capacities.

Made with high-strength polyethylene through rotational molding, they provide a solid structure ensuring maximum food protection, whether on the go or during fixed installation.

Portability is a distinctive feature of these VITRIFRIGO C29M refrigerators, allowing easy transportation anywhere. Integrated handles make transport convenient and secure, while the fixing bracket ensures the refrigerator remains stable in its support during transportation.

Additionally, the internal steel wire basket offers a practical way to organize food inside the refrigerator, keeping it tidy and easily accessible.

The VITRIFRIGO C29M series offers a wide range of features, including mechanical or digital thermostats for precise internal temperature control.

This enables keeping food fresh and well-preserved, with an internal temperature range from +10°C to -15°C, adaptable to various preservation needs.

The integrated LED light provides effective and energy-efficient illumination inside the refrigerator, ensuring optimal visibility even in low-light conditions.

With a nominal consumption of only 48W, the refrigerators in the VITRIFRIGO C29M series are also energy-efficient,

allowing prolonged use without excessive energy consumption concerns. Additionally, they come with a battery power supply cable with a universal socket for the cigarette lighter, offering an alternative power option for situations where a traditional power outlet is not available.

The VITRIFRIGO C29M is an excellent choice for those seeking high-quality portable and built-in refrigerators and freezers, ideal for use in dedicated compartments and for refrigeration needs on the go. With their robustness, versatility, and practicality, these refrigerators offer reliable performance and optimal food preservation, ensuring a pleasant refrigeration experience in any situation.

Technical Specifications VITRIFRIGO C29M:

Total capacity litres: 29

Net weight: 15 Kg

Power supply: 12/24Vdc (also available 12/24Vdc - 100-240Vac 50/60Hz). D version only available 12/24Vdc - 100-240Vac 50/60Hz

Nominal consumption: 48W

Total width: 530 mm.

Total height: 390 mm.

Total depth: 345 mm.

Internal temperature range: +10°C / -15°C

Looking for a cockpit refrigerator with different technical characteristics? Here you can find the full range VITRIFRIGO or other specialized brands.

Product features:

Input power (W): 12/24Vdc (also available 12/24Vdc - 100-240Vac 50/60Hz). Version D only available 12/24Vdc - 100-240Vac 50/60Hz

Length (mm): 345

Width (mm): 530

Height (mm): 390

Dry weight (Kg): 15

Product type: Portable and special installation fridge-freezers
Capacity of the refrigerator (L): 29
Nominal consumption: 48W
Internal temperature: +10°C / -15°C
