Product description:

VITRIFRIGO VFT40 PORTABLE FRIDGE-FREEZER

The VITRIFRIGO VFT40, belonging to the Vfree Plus series, stands out as a versatile portable fridge-freezer, tailored for specialized installations, particularly well-suited for yachts and boats. With a generous 40 liters capacity and a manageable net weight of 16.7 kg, it operates efficiently on either 12/24Vdc or 100-240Vac power sources, boasting a nominal consumption of 60W, thereby ensuring a commendable energy efficiency rating of class F. Its compact dimensions, spanning a total width of 711 mm, a height of 441 mm, and a depth of 460 mm, render it exceptionally suitable for constrained spatial environments, without compromising on functionality.

The VITRIFRIGO VFT40 presents a host of advanced features to enhance user experience. The centerpiece is its Total Control LCD digital panel, granting seamless access to all refrigerator functions, thereby empowering users with precise control over their cooling needs. Furthermore, the inclusion of Remote Control functionality, operable via smartphone, adds an extra layer of convenience and accessibility to the appliance's operation. Moreover, an internal LED light not only ensures optimal visibility within the fridge but also contributes to reduced energy consumption, aligning with contemporary eco-conscious sensibilities.

In addition to its core functionalities, the VITRIFRIGO VFT40 offers a range of optional add-ons to further augment its utility and adaptability to diverse user requirements. These include the Double Power feature, comprising a 12/24Vdc cigarette lighter cable and an external 100-240Vac adapter, catering to varied power input scenarios. The Super Energy option introduces a removable 15600mAh lithium-ion battery, providing users with an additional power reservoir for extended operation. For enhanced durability and protection, the Max Protection feature shields the refrigerator during outdoor usage, while the Solar Kit presents a portable 100/200W solar panel solution, facilitating battery charging on the go. Finally, the availability of the Next Gen Slides option, incorporating ultra-resilient steel sliding guides, further underscores the product's commitment to longevity and user satisfaction.

In conclusion, the VITRIFRIGO VFT40 epitomizes a harmonious blend of cutting-edge features, versatile functionality, and user-centric design, ensuring a dependable and user-friendly refrigeration experience tailored to meet the discerning needs of modern consumers, particularly in specialized marine environments.

Technical Specifications VITRIFRIGO VFT40:

Total capacity liters: 60
Net weight: 17.7 Kg
Power supply: 12/24Vdc - 100-240Vac 50/60Hz
Nominal consumption: 60W
Total width: 647 mm.
Total height: 571 mm.
Total depth: 400 mm.
Energy class: F
Indoor temperature range: +20°C / -20°C

Product features:

Length (mm): 400
Width (mm): 647
Height (mm): 571
Dry weight (Kg): 17.7
Feed Type: 12/24Vdc - 100-240Vac 50/60Hz
Product type: Portable and special installation fridge-freezers
Capacity of the refrigerator (L): 60
Energy class: F
Nominal consumption: 60W
Internal temperature: +20°C / -20°C
