

VITRIFRIGO - ND35 OR-S

Refrigeration unit

Product description:

VITRIFRIGO ND35 OR-S REFRIGERATION UNIT

The VITRIFRIGO ND35 OR-S represents a highly reliable and versatile unit, specifically designed to meet the needs of refrigerators and freezers with capacities up to 300 liters and 100 liters respectively.

Refrigeration units are available following verification of compatibility with vessel dimensions and required power. Contact us for more information.

The VITRIFRIGO ND35 OR-S is powered, as standard, by 12/24 Vdc and is supplied with nitrogen pressure, ensuring excellent efficiency and reliability in maintaining optimal temperatures within refrigerated spaces. Upon request, the unit can be equipped with quick couplings and an additional power supply option at 100/240 Vac, providing greater installation and usage flexibility.

Depending on the type of system, alternating current power can be supplied either through an electronic control unit applied to the compressor of the VITRIFRIGO ND35 OR-S (12-24 / 100-240 Vac 50/60 Hz) or through an external adapter with automatic switching.

The standard equipment of the VITRIFRIGO ND35 OR-S includes technical specifications such as a width of 270 mm, height of 170 mm, and depth of 160 mm, while additional options allow further customization to meet specific needs. Detailed information provided in the tables offers a comprehensive guide to the configuration and practical application of this innovative unit, making it an ideal choice for a wide range of applications.

The tables following the technical data describe various types of condensation,

also serving as a simple guide for configuring a unit,
with a practical application example for the VITRIFRIGO ND35 OR-S.

Technical features of VITRIFRIGO ND35 OR-S:

- Standard equipment: 12/24Vdc without quick connections.
- Optional equipment: 12/24Vdc - 100/240Vac 50/60Hz with quick connections.
- Dimensions: Width 270 mm, Height 170 mm, Depth 160 mm.

VITRIFRIGO ND35 OR-S

Product features:

Length (mm): 160

Width (mm): 270

Height (mm): 170

Product type: Unità refrigerante

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings
