### Product description:

#### VITRIFRIGO ND35 OR-V REFRIGERATION UNIT

The VITRIFRIGO ND35 OR-V Refrigeration Unit is a reliable and versatile refrigeration solution, suitable for refrigerator compartments up to 300 liters and freezer compartments up to 100 liters.

Refrigeration units can be purchased following compatibility verification with the dimensions of the boat and the required power. Contact us for more information.

Powered by 12/24 Vdc and supplied with nitrogen pressure, the VITRIFRIGO Refrigeration Unit ND35 OR-V offers the flexibility to be equipped with quick couplings and additional 100/240 Vac power supply upon request. The alternating current power supply can be managed through an electronic control unit (12-24 / 100-240 Vac 50/60 Hz) or an external automatic switching power supply, depending on the system's needs.

The technical specifications of the VITRIFRIGO ND35 OR-V include a width of 270 mm, a height of 170 mm, and a depth of 160 mm. These compact dimensions allow easy and versatile installation in a variety of environments. Furthermore, thanks to its robust construction and optimized design, this unit ensures reliable and long-lasting performance.

Finally, the detailed information provided in the tables offers a comprehensive guide to the configuration and practical application of the VITRIFRIGO ND35 OR-V. Thanks to its versatility and excellent performance, this product proves to be an ideal choice for a wide range of applications in the industrial refrigeration sector.

The VITRIFRIGO ND35 OR-V unit ensures continuous and reliable operation, while the use of nitrogen pressure guarantees excellent efficiency

in maintaining the desired temperatures.

## **INCLUDED WITH QUICK COUPLINGS**

### **Technical characteristics VITRIFRIGO ND35 OR-V:**

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings

Width: 275 mm.

Height: 160 mm.

Depth: 150 mm.
