

# VITRIFRIGO - ND50 VR-V Refrigeration unit

## Product description:

### VITRIFRIGO ND50 VR-V REFRIGERATION UNIT

The VITRIFRIGO ND50 VR-V is a reliable unit designed to meet the refrigeration needs of refrigerators up to 300 liters and freezers up to 100 liters.

These units are available upon verification of compatibility with vessel dimensions and power requirements. Contact us for further information.

Powered by 12/24 Vdc as standard and supplied with nitrogen pressure, they can be equipped upon request with quick couplings and additional power supply at 100/240 Vac.

Depending on the type of system, alternating current power can be managed through an electronic control unit VITRIFRIGO ND50 VR-V (12-24 / 100-240 Vac 50/60 Hz) applied to the compressor or through an external automatic switching power supply.

Additionally, the VITRIFRIGO ND50 VR-V unit can be configured with additional options, such as quick couplings and additional power supply, to best meet specific needs. These options allow for greater customization, ensuring an optimal solution for every situation.

Thanks to its versatility and reliable performance, the VITRIFRIGO ND50 VR-V unit is ideal for a wide range of industrial applications.

The tables following the technical data describe various types of condensation and offer a guide to configuration, along with a practical application example.

VITRIFRIGO ND50 VR-V: the ideal solution for your industrial refrigeration.

The VITRIFRIGO ND50 VR-V provides reliable performance and versatility to meet refrigeration needs in a variety of industrial settings.

**Technical features of VITRIFRIGO ND50 VR-V Refrigeratio Unit:**

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings

Width: 210 mm.

Height: 230 mm.

Depth: 155 mm.

VITRIFRIGO ND50 VR-V

**Product features:**

Length (mm): 155

Width (mm): 210

Height (mm): 230

Product type: Unità refrigerante

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings
