

VITRIFRIGO - ND35 OR1-V

Refrigeration unit

Product description:

VITRIFRIGO ND35 OR1-V REFRIGERATION UNIT

The VITRIFRIGO ND35 OR1-V is an advanced and reliable solution to meet needs in a wide range of settings. Specifically designed for refrigerators up to 300 liters and freezers up to 100 liters, this unit offers optimal performance and unmatched versatility.

Refrigeration units are available following verification of compatibility with vessel dimensions and required power. Contact us for more information.

Powered by 12/24 Vdc and supplied with nitrogen pressure, the VITRIFRIGO ND35 OR1-V ensures excellent energy efficiency and reliability in maintaining optimal temperatures within refrigerated spaces. Its flexibility allows for equipping the unit with quick couplings and additional power supply at 100/240 Vac upon request, providing greater installation and usage flexibility.

Thanks to its sturdy construction and optimized design, the VITRIFRIGO ND35 OR1-V ensures reliable and long-lasting performance. Its compact dimensions enable easy and versatile installation in a variety of environments, ensuring an optimal solution for any situation.

In conclusion, the VITRIFRIGO ND35 OR1-V stands out as an excellent choice for a wide range of applications in the industrial sector. With its versatility and reliable performance, this product proves essential for those seeking high-quality and efficient solutions.

Discover the potential of the VITRIFRIGO ND35 OR1-V and transform your experience with reliable performance and unmatched versatility.

Technical features of VITRIFRIGO ND35 OR1-V Refrigeration Unit:

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings

Width: 270 mm.

Height: 170 mm.

Depth: 160 mm.

Product features:

Length (mm): 160

Width (mm): 270

Height (mm): 170

Product type: Unità refrigerante

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings
