Product description:

Marine Inverter TMC260

The TMC260 Marine Inverter is a high-end product designed to deliver exceptional performance and unrivalled reliability.

With its mechanically driven servo-assisted bevel clutches, silent gears and generously dimensioned bearings

this inverter is capable of handling even the largest and most demanding vessels.

Marine Inverter TMC260 is not just a component, it is the beating heart of your boat,

the perfect combination of power and reliability.

Designed to meet the needs of those who want the most from their boat,

the TMC260 stands out for its high performance and attention to detail, offering an unrivalled sailing experience.

Key features:

Servo-assisted mechanical cone clutches: they guarantee smooth and precise engagement, without jerks or annoying noises.

Specially designed gears: minimise noise

of operation and offer greater running smoothness.

Generously dimensioned bearings: ensure high reliability and long service life.

Technical Specifications Marine TMC260 Inverter:

Maximum motor speed: 5000 Rpm Maximum motor power: 84 Kw Dry weight: 18 Kg Oil quantity: 1.2 L

PrestaShop

R)

Oil type: ATF

Torsional compatibility:

Disregarding propulsion system torsional compatibility could cause demage to components in the drive train resulting in loss of mobility.

At minimum, system incompatibility could result in gear clatter at low speeds.

The responsibility for ensuring that the torsional compatibility of the propulsion system is satisfactory rests with the assembler of the drive and driven equipment.
