Product description:

VITRIFRIGO DW360 OCX2 DTX FRIGO-FREEZER

The VITRIFRIGO DW360 OCX2 DTX represents a refrigerator-freezer characterized by modern design and advanced functionality. Belonging to the DW OCX2 series by VITRIFRIGO, this device features an upper compartment for the refrigerator and a lower one for the freezer, both made of high-quality stainless steel 316. With a total capacity of 301 liters, including 157 liters in the upper compartment and 150 liters in the lower one, it offers ample space to organize food neatly.

The new OCX2 series by VITRIFRIGO DW360 OCX2 DTX presents a refreshed design characterized by a squared door in satin stainless steel and a top with glossy finishes, providing an elegant and modern appearance to the product. Versatility is ensured by the unique mounting system, allowing the refrigerator to be positioned as both a door outside and a door inside, thus offering installation flexibility. Additionally, the fixing profile of the VITRIFRIGO DW360 OCX2 DTX is equipped with a disappearing groove that optimizes perimeter ventilation and prevents the formation of mold and unpleasant odors.

Among the advanced features of the VITRIFRIGO DW360 OCX2 DTX, you can find the "Steelock" closure, ensuring a perfect seal, and the LED thermostat, enabling precise temperature control. The Steelock handle is designed with a vent position to promote ventilation during periods of non-use. The new "Venting Frame" system improves air circulation and refrigeration efficiency, while the sturdy drawers provide ample space to organize food neatly. All models in the drawer series are made of stainless steel 316, ensuring durability and resistance over time.

Furthermore, the presence of an LED light inside the refrigerator ensures optimal illumination, making it easier to find food even at night.

With reduced nominal energy consumption and various power options, including 12/24Vdc and dual-power control unit 12/24Vdc - 100-240Vac 50/60Hz, the VITRIFRIGO DW360 OCX2 DTX is ideal for both domestic and commercial use. Thanks to its combination of style, functionality, and reliability, it represents an excellent choice for those seeking a high-quality refrigerator-freezer.

Technical Specifications VITRIFRIGO DW360 OCX2 DTX:

Total capacity litres: 301

Upper compartment capacity litres: 157

Lower compartment capacity litres: 150

Net weight: 100 Kg.

Upper compartment power supply (A): 12/24Vdc (also available with bivalent 12/24Vdc 100-240Vac 50/60Hz control unit)

Lower compartment power supply (B): 12/24Vdc (also available with bivalent 12/24Vdc 100-240Vac 50/60Hz control unit)

Nominal consumption upper compartment (A): 45W

Nominal consumption lower compartment (B): 61W

Total width: 682 mm.

Overall height: 1710 mm.

Total depth: 596 mm.

Product features:

Length (mm): 596

Width (mm): 682

Height (mm): 1710

Dry weight (Kg): 100

Product type: Fridge Freezer

Total capacity liters: 301

Upper compartment capacity liters: 157

Lower compartment capacity litres: 150

Upper compartment power supply: 12/24Vdc (disponibile anche con centralina bivalente)

12/24Vdc - 100-240Vac 50/60Hz)

Lower compartment power supply: 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption upper compartment: 45W

Nominal consumption lower compartment: 61W
