Product description:

VITRIFRIGO DW360 OCX2 BTX FRIGO-FREEZER

The VITRIFRIGO DW360 OCX2 BTX is a refrigerator-freezer with impeccable performance and elegant design, part of the stainless steel drawer refrigerators and freezers series OCX2. This line stands out not only for its modern aesthetics, with the new squared door in satin stainless steel and the top with glossy finishing elements, but also for its advanced functionality.

With a total capacity of 301 liters, the VITRIFRIGO DW360 OCX2 BTX offers optimal internal organization, divided between the upper compartment of the and the lower freezer. The has a capacity of 157 liters, while the freezer is divided between two drawers for a total of 80+64 liters. This ample capacity makes it ideal for domestic use or for applications in campers and boats.

The versatility of power supply of the VITRIFRIGO DW360 OCX2 BTX is a strength, as it can be powered both at 12/24Vdc and with a bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz, offering greater flexibility of use. Furthermore, the low nominal consumption (45W for the upper compartment and 61W for the lower) ensures significant energy savings.

A distinctive feature of this model is the possibility to adopt the "Double Door Position", thanks to a single fixing profile that allows the to be positioned both in door inside and door outside versions, ensuring maximum adaptability to different installation requirements.

The VITRIFRIGO DW360 OCX2 BTX is equipped with an elegant Steelock handle with "Vent Position", which allows leaving the door slightly ajar during periods of non-use to prevent the formation of mold and unpleasant odors. Furthermore, the Steelock closure system ensures a perfect seal, while the new Venting Frame slot system optimizes air circulation for greater efficiency.

Inside, the drawers are made of resistant materials and offer ample storage capacity for better food organization. The presence of LED lights guarantees optimal illumination, allowing you to easily find what you are looking for inside the even in the dark.

In conclusion, the VITRIFRIGO DW360 OCX2 BTX is the ideal choice for those seeking a refrigerator-freezer with excellent performance, appealing design, and great ease of use. Thanks to its innovative features and versatility, it perfectly adapts to any domestic or travel environment, always ensuring freshness and optimal food preservation.

Technical Specifications VITRIFRIGO DW360 OCX2 BTX:

Total capacity litres: 301

Upper compartment capacity litres: 157

Lower compartment capacity litres: 80+64

Net weight: 102 Kg.

Upper compartment power supply (A): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Lower compartment power supply (B): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption upper compartment (A): 45W

Nominal consumption lower compartment (B): 61W

Total width: 682 mm.

Overall height: 1710 mm.

Total depth: 596 mm.
