Product description:

BM2 SALLY PLUS 14010M DIESEL PRESSURE WASHER

The BM2 SALLY PLUS 14010M Diesel Pressure Washer represents the pinnacle of innovation in the industrial cleaning equipment sector. Equipped with a crankshaft pump with ceramic pistons and brass head, it ensures reliable and long-lasting performance. The Total Stop Delayed TSD system ensures optimal control of the machine, while the presence of independent motors for the pump and burner offers unparalleled flexibility, adapting to specific cleaning needs.

The high-efficiency boiler with double spiral coil of the BM2 SALLY PLUS 14010M ensures rapid and uniform heating of water, allowing even the most challenging cleaning operations to be tackled with ease. The motor thermal protection ensures operator safety and machine durability even in extreme conditions.

With an ergonomic and functional design, the BM2 SALLY PLUS 14010M Pressure Washer offers an optimal user experience. The pump-boiler ignition/switch-off switch and the water temperature regulation thermostat allow precise and intuitive control. The rubber rear wheels and the front pivot wheel with brake ensure easy maneuverability on any surface, while the reinforced metal base guarantees stability and resistance over time.

The impact-resistant plastic tank and the predisposition for hose reel add convenience and versatility to the machine. The anti-lime scale cartridge and the predisposition for low-pressure detergent action testify to the attention to detail and versatility of the BM2 SALLY PLUS 14010M.

With cutting-edge technical specifications, including a maximum pressure of 140 bar, a maximum flow rate of 600 Lt./h, and a maximum temperature of 75°C,

the BM2 SALLY PLUS 14010M confirms itself as the ideal choice for those seeking high performance and reliability in any situation.

With a length of 850 mm, a width of 475 mm, and a height of 855 mm, this BM2 SALLY PLUS 14010M Diesel Pressure Washer is compact and maneuverable, yet robust and resistant, with a weight of 70 Kg. It is the perfect solution for a wide range of industrial and commercial applications, ensuring excellent performance and impeccable results in every situation.

Technical Specifications BM2 SALLY PLUS 14010M PRESSURE WASHER:

Power supply: 230V-1ph-50Hz

Fuel: Diesel

Frequency: 50 Hz

Voltage: 230 V

Maximum pressure: 140 bar - 14 MPa - 2030 psi

Maximum flow rate: 600 Lt./h

Pump: IP E1

Pump rotation: 1450 rpm

Maximum power consumption: 3.0 KW

Maximum temperature: 75 °C

Shut-off system: TSD

Diesel tank: 20 l

Length: 850 mm.

Width: 475 mm.

Height: 855 mm.

Weight: 70 Kg.

Product features:

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Pump type: IP E1

Maximum output capacity (Lt/min): 600

Tank capacity (L): 20

Transportability: Wheels and handles

Length (mm): 850

Width (mm): 475

Height (mm): 855

maximum water temperature (°C): 75

Weight (Kg): 70

Maximum input power (KW): 3.0

Pump rotation (rpm): 1450

Maximum pressure (bar-MPa-psi): 140 - 14 - 2030

Stop system: TSD
