Product description:

BM2 SUPER 18018 HIGH PRESSURE WASHER 180 BAR

The BM2 SUPER 18018 High Pressure Washer 180 bar represents the pinnacle of innovation in the field of high pressure cleaning equipment.

With its advanced features and unparalleled reliability, the BM2 SUPER 18018 High Pressure Washer 180 bar stands at the forefront of the industry, ensuring superior performance in every usage scenario.

The BM2 SUPER 18018 has the IP 47 pump, equipped with ceramic pistons and a brass head. This combination ensures exceptional durability and consistent performance over time, providing the BM2 SUPER 18018 HPW 180 bar with unsurpassed structural solidity. The motor, operating at 1450 rpm, ensures efficient and silent operation, allowing for optimal results without compromising tranquility.

Safety is a fundamental element in the design of the BM2 SUPER 18018 HPW 180 bar. The motor/pump coupling protection system, with a special lubricant containment system, guarantees safe and reliable operation in any situation. Furthermore, the presence of a pressure regulation valve and a leak control system ensures a hassle-free user experience.

Versatility is another distinctive feature of the BM2 SUPER 18018. Equipped with high-pressure detergent delivery and adjustable anti-scale system, this high-pressure washer can adapt to the most diverse needs, always ensuring impeccable results.

Moreover, the presence of a boiler with an efficiency of over 89% and pre-ventilation ensures efficient energy utilization, helping to reduce consumption and operational costs.

Practicality is another strong point of the BM2 SUPER 18018 High Pressure Washer 180 bar. With a series of features designed to simplify daily use, such as the feeding water tank

with float valve and the storage compartment with valve adjustment access, this BM2 SUPER 18018 High Pressure Washer proves to be a reliable and intuitive companion in every situation.

In summary, the BM2 SUPER 18018 represents the benchmark in the landscape of high-pressure washers. Thanks to its cutting-edge technology, reliability, and versatility, it is capable of delivering superior performance in every usage scenario, confirming its status as an undisputed leader in the industry.

Technical Features BM2 SUPER 18018:

Phase type: Three-phase

Supply voltage: 400 V

Frequency: 50 Hz

Maximum pressure: 180 bar - 18 Mpa - 2600 psi

Maximum flow rate: 1080 Lt./h

Pump: IP 47

Shutoff System: ACDS

Pump rotation: 1450 rpm

Maximum power consumption: 7.2 KW

Power supply: 400 V - 3ph - 50 Hz

Maximum temperature: 140 °C

Tank capacity: 35 lt

Detergent tank capacity: 3 lt

Length: 956 mm

Width: 610 mm

Height: 940 mm

Weight: 144 Kg.

Product features:

Phase: Three phase

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 400
Pump type: IP 47
Maximum output capacity (Lt/min): 1080
Tank capacity (L): 35
Transportability: Wheels and handles
Length (mm): 956
Width (mm): 610
Height (mm): 940
Dry weight (Kg): 144
Feed Type: 400V - 3ph - 50Hz
maximum water temperature (°C): 140
Maximum input power (KW): 7.2
Pump rotation (rpm): 1450
Maximum pressure (bar-MPa-psi): 180 - 18 - 2600
Stop system: ACDS
Detergent tank: 3
