Product description:

BM2 SUPER PLUS 17015 HIGH PRESSURE WASHER 170 BAR

The BM2 SUPER PLUS 17015 High Pressure Washer represents the pinnacle of innovation in the high-pressure machine sector. Characterized by a range of extraordinary performances and advanced functionalities, the BM2 SUPER PLUS 17015 is designed to meet the most demanding needs in terms of cleaning and maintenance.

The heart of this powerful machine is represented by its pump, equipped with ceramic pistons and brass head, which ensures exceptional durability and consistent performance over time. Thanks to its 1450 rpm motor and motor-pump coupling via an elastic joint, the BM2 SUPER PLUS 17015 guarantees efficient and reliable operation in every situation.

Equipped with an advanced ACDS2 control system, the BM2 SUPER PLUS 17015 offers an unprecedented level of precision in controlling pressure and water flow. Its delayed stop system allows for greater safety and control during use, while the possibility of connection to a diagnostic reader offers simplified maintenance and issue resolution.

The BM2 SUPER PLUS 17015 High Pressure Washer is designed to tackle even the most challenging tasks, thanks to its pressure regulation valve, which allows adapting cleaning power to different surfaces. Additionally, its high-pressure detergent delivery ensures deep and effective cleaning, even in the presence of stubborn dirt.

Safety is a priority with this pressure washer, which is equipped with a series of control and protection functions, including leak detection, motor thermal protection, and automatic shutdown after 20 minutes of inactivity. LED indicators provide immediate feedback on the machine's status, ensuring safe and trouble-free use.

With an ergonomic and functional design, the BM2 SUPER PLUS 17015 High Pressure Washer also offers high ease of use, with free and swivel wheels that allow easy maneuverability

and a storage compartment for convenient access to accessories and adjustment tools.

In summary, the BM2 SUPER PLUS 17015 High Pressure Washer is the ideal choice for those seeking superior performance, reliability, and safety in one solution.

With its cutting-edge technology and innovative features, the BM2 SUPER PLUS 17015 is ready to overcome any challenge and guarantee impeccable results in every situation.

Technical Features BM2 SUPER PLUS 17015:

Phase type: Three-phase

Supply voltage: 400 V

Frequency: 50 Hz

Maximum pressure: 170 bar - 17 Mpa - 2460 psi

Maximum flow rate: 900 Lt./h

Pump: IP 47

Shutoff System: ACDS

Pump rotation: 1450 rpm

Maximum power consumption: 5.6 KW

Power supply: 400 V - 3ph - 50 Hz

Maximum temperature: 140 °C

Tank capacity: 35 lt

Detergent tank capacity: 3 lt

Length: 956 mm.

Width: 610 mm.

Height: 940 mm.

Weight: 146 kg.

Product features:

Phase: Three phase

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 400

Pump type: IP 47

Maximum output capacity (Lt/min): 900
Tank capacity (L): 35
Transportability: Wheels and handles
Length (mm): 956
Width (mm): 610
Height (mm): 940
Dry weight (Kg): 146
Feed Type: 400V - 3ph - 50Hz
maximum water temperature (°C): 140
Maximum input power (KW): 5.6
Pump rotation (rpm): 1450
Maximum pressure (bar-MPa-psi): 170 - 17 - 2460
Stop system: ACDS
Detergent tank: 3
