Product description:

BM2 MIDIA 16015 TSD HIGH PRESSURE CLEANER 160 BAR

The BM2 MIDIA 16015 TSD is a high-quality cold water pressure washer designed to meet the most demanding cleaning needs.

With its pressure of 160 bar and flow rate of 900 lt/h, this machine is able to remove even the most stubborn dirt from surfaces such as floors, vehicles, machinery and more.

Brass Pump Head and Piston Rod Models: The BM2 MIDIA 16015 TSD is equipped with brass pump heads, which guarantee greater resistance to wear and a longer service life. This piston rod model offers high performance and reliable operation.

Delayed and Immediate Shut-Off: The BM2 MIDIA 16015 TSD features a delayed shut-off that helps to prolong the life of the pump.

High-Efficiency Motor and 1450 rpm Rotation: The BM2 MIDIA 16015 TSD is powered by a high-efficiency motor that guarantees optimal performance and low energy consumption. The motor's 1450 rpm rotation ensures quiet and smooth operation.

Low-Pressure Detergent Delivery: This pressure washer features a low-pressure detergent delivery system that allows you to apply detergent directly to the surface to be cleaned with precise control.

Adjustable Spray Angle and Motor Thermal Protection: The spray angle is adjustable to adapt to different cleaning needs.

Motor thermal protection protects the machine from overloads.

AISI 430 Cover, Anti-Track Wheels and Inspectable Water Filter: The BM2 MIDIA 16015 TSD is equipped with an AISI 430 stainless steel cover that guarantees greater resistance to corrosion. The anti-track wheels facilitate the transport of the machine, while the inspectable water filter helps to protect the pump from debris.

Lance Holder and Hose Reel Pre-Wiring: This pressure washer comes with a standard lance holder for added convenience.

It is also pre-wired for the installation of an optional hose reel.

Technical Specifications BM2 MIDIA 16015 TSD:

Phase type: Three-phase

Frequency: 50 Hz

Voltage: 400 V

Maximum pressure: 160 bar - 16 Mpa - 2300 psi

Maximum flow rate: 900 Lt./h

Pump: IP E1

Stop system: TSD

Pump speed: 1450 rpm

Maximum absorbed power: 4.5 KW

Supply voltage: 400 V - 3ph - 50Hz

Cleaning agent tank: 5 lt

Maximum inlet temp: 40 °C

Pallet quantities: 16 pcs

Length: 810 mm.

Width: 380 mm.

Height: 870 mm.

Weight: 50 Kg.

Product features:

Phase: Three phase
Frequency (Hz): 50
Voltage (V): 400
Pump type: IP E1
Maximum output capacity (Lt/min): 900
Transportability: Wheels and handles
Length (mm): 810
Width (mm): 380
Height (mm): 870
Feed Type: 400V - 3ph - 50Hz
maximum water temperature (°C): 40
Weight (Kg): 50
Maximum input power (KW): 4.5
Pump rotation (rpm): 1450
Maximum pressure (bar-MPa-psi): 160 - 16 - 2300
Stop system: TSD
Detergent tank: 5
