Product description:

FENZI G12 TANK OUTDOOR DISPENSER 2000LT

The FENZI G12 TANK Outdoor Dispenser is a horizontal external dispenser tank specifically designed for storing and distributing AdBlue. The FENZI G12 Outdoor Dispenser is an ideal solution for those needing a reliable and durable system to manage AdBlue, thanks to its high-density linear polyethylene construction that offers exceptional mechanical, chemical, and UV resistance.

Features of the FENZI G12:

The FENZI G12 TANK is a monolithic tank, ensuring a robust, joint-free structure that is ideal for preventing leaks and ensuring maximum safety. Available in blue, the FENZI G12 has a capacity of 2,000 liters, making it perfect for various storage needs.

Material: High-density linear polyethylene
Capacity: 2.000 liters
Color: Blue
Resistance: Mechanical, chemical, and UV

Components of the FENZI G12:

Manhole with screw cap: Facilitates access for maintenance and filling.
1" vent valve: Ensures adequate ventilation during filling and dispensing.

2" fill connection: Allows for quick and safe tank filling.
1" suction tube: Designed for efficient liquid extraction.

Dispensing Cabinet:

The FENZI G12 TANK comes with an AdBlue dispensing cabinet, consisting of the following elements:

Metal cabinet with key lock: Ensures the security of the dispensing system.

Electric diaphragm pump, self-priming, 230 V – 50 Hz, 40 L/min flow rate: Provides a constant and reliable AdBlue flow.

Digital turbine flow meter: Allows precise monitoring of the dispensed liquid quantity.

EPDM distribution hose, 3/4" section, 4 m length: Offers flexibility and chemical resistance.

Automatic distribution nozzle: Facilitates refueling with automatic flow interruption to prevent waste and spills.

The external dispenser tank FENZI G12 TANK offers numerous advantages thanks to its advanced features.

Its solid and durable construction ensures long-lasting performance even in challenging environmental conditions.

The integration of a complete dispensing system makes the tank an excellent choice for those seeking a practical and safe solution for managing AdBlue.

The FENZI G12 is perfect for a wide range of applications, including industrial sites, fuel depots, and transport

companies that need AdBlue for their diesel vehicles. With a capacity of 2.000 liters and an efficient dispensing system,

it always ensures the availability of the necessary AdBlue for the proper functioning of diesel engines.

The FENZI G12 TANK Outdoor Dispenser represents a complete and high-quality solution for storing and

distributing AdBlue. The combination of a robust and durable tank with an advanced dispensing system makes

the FENZI indispensable for those needing to manage AdBlue safely and efficiently. By choosing the

FENZI G12 TANK, you opt for a product designed to last over time and ensure excellent performance in any situation.
