## Product description:

### OSMOSEA PURIFICATOR 300 LED

Osmosea PURIFICATOR 300 LED is a very simple water treatment system that guarantees disinfected water, free of sediment, chlorine and unpleasant odours.

With the Osmosea PURIFICATOR 300 LED you will always have high quality water and you will finally be free of plastic bottles that take up space on board and pollute our seas. In the Osmosea PURIFICATOR 300 LED the disinfectant lamp with LED technology switches on automatically when the tap is opened, does not need to be preheated, has a longer service life and consumes only 8,5 watts during tapping.

### Action of the Osmosea Purificator 300 LED

- Sediment filter to remove impurities down to 5 microns
- Activated Carbon Filter to eliminate chlorine, bad smells and bad taste
- Alkaline pH Remineraliser Filter
- LED UVC disinfectant lamp to eliminate all bacteria and viruses

Osmosea PURIFICATOR 300 LED is easily connected to the kitchen tap thanks to the supplied kit.
