

# Dometic HSG2445 Two-burner cooktop

Product price:

**310,00 € tax excluded**

## Product description:

Dometic HSG2445 cooktop a powerhouse of functionality in a compact space

The *Dometic HSG2445* cooktop is an innovative solution for those seeking a complete and functional kitchen in smaller spaces. Specifically designed to meet the needs of those travelling in campers, caravans, or boats, this appliance combines the practicality of a two-burner hob with the convenience of a sink, all in a minimal footprint.

Its compact dimensions (600 x 445 x 138.5 mm) and lightweight (6 kg) make it extremely manageable and easy to install. Despite its small size, the product does not compromise on performance. The two burners, with outputs of 1.6 kW and 1 kW respectively, allow for versatile cooking and the ability to adjust the power to suit the desired cooking style.

The integrated sink, combined with the glass cover, transforms this appliance into a true nerve centre of the on-board kitchen. When the hob is not in use, the glass cover can be closed, providing an additional work surface and protecting the burners.
