Product description:

Master Spray LITHIUM 4200: Precision and Power for Perfect Lines

The Master Spray LITHIUM 4200 is a professional airless electric line marking machine designed to offer exceptional performance and maximum versatility. Thanks to its powerful 4 HP HONDA engine, this machine is able to guarantee a high flow rate and constant pressure, ideal for drawing precise and well-defined lines on various surfaces.

Main Features Master Spray LITHIUM 4200 :

Airless technology: Allows paint to be applied evenly and without splashes, guaranteeing a flawless end result.

HONDA engine: Reliable and durable, it ensures long life and optimum operation in all conditions.\

Versatility: Ideal for marking parking lines, road markings, cycle paths and much more.

Ease of use: The hand lever on the handle allows easy control of the spray gun, while the suction system simplifies paint loading.

Robustness: Built with high-quality materials, the LITHIUM 4200 is designed to withstand the wear and tear and stresses of daily work.

Safety: Tungsten carbide valves ensure a long service life and greater resistance to wear.

Technical specifications Master Spray LITHIUM 4200 :

Engine | Volt HONDA

Power 4 HP

Max. flow rate l/min 4,0

Max. flow rate w/nozzle l/min 2,5

Nozzle Max. 0.023'

Max. Working pressure Bar (PSI) 280 (4060)

Max. Pipe length 100

Max. Tube Elevation 60

Weight (bare) Kg. 40
