Product description:

TRUMA - Vario Heat eco heater with CP-PLUS iNET Ready control

The Truma Vario Heat eco is a gas heater designed specifically for vans,

motor homes and caravans. Belonging to the new generation of Truma heaters, it stands out for its power, compactness and ease of use.

Key features:

Customizable power: With three power levels (1300W, 2800W), you can tailor the heater to your needs, whether you want a warm and cozy environment or simply to eliminate humidity.

Rapid heating: The Boost function significantly increases airflow, allowing your vehicle to heat up in record time.

Digital control: The CP plus Vario Heat eco digital control panel gives you precise and intuitive temperature control.

Compact and efficient: The compact and lightweight design makes it easy to install, while the high energy efficiency reduces gas consumption.

Quiet operation: Night mode provides near-silent operation, ideal for a peaceful night's rest.

Compatibility with iNET X: Although not specified in the technical specifications provided, it is likely that the VarioHeat comfort is compatible with the iNet X system, allowing you to control the heating remotely via app. This feature, suggested by the key phrase, adds value to the product.

Technical Specifications Vario Heat Eco Stove:

Power Type: Propane - butane
Operating pressure: 30 mbar
Rated heat output
Power: 1300W - 2800W
Fuel consumption
100 g/hour - 220 g/hour
Voltage supply: 12 V
Current consumption 0.65A / 2.75A
Weight 5.5 kg
Dimensions: 400 x 284 x 123 mm
75 m³/hour / 155 m³/hour
Quiescent current consumption CP plus VarioHeat - 4mA
