Product description:

TRUMA - Vario Heat comfort heater with CP-PLUS iNET Ready control

The Truma Vario Heat comfort is a gas heater designed specifically for vans

motor homes and caravans. Belonging to the new generation of Truma heaters, it is characterised by its power, compactness and ease of use.

Key features:

Customisable power: Thanks to the three power levels (1300W, 2800W, 3700W), you can adapt the heating to your needs, whether you want a warm and cosy environment or simply to eliminate humidity.

Fast heating: The Boost function significantly increases the air flow, allowing your vehicle to heat up in record time.

Digital control: The CP plus VarioHeat digital control panel gives you precise and intuitive temperature control.

Compact and efficient: The compact and lightweight design makes it easy to install, while the high energy efficiency reduces gas consumption.

Silent operation: Night mode ensures near-silent operation, ideal for a peaceful night's rest.

iNET X compatibility: Although not specified in the technical specifications provided, the VarioHeat comfort is likely to be compatible with the iNet X system, allowing you to control the heating remotely via app. This feature, suggested by the key phrase, adds value to the product.

Technical characteristics Vario Heat comfort Stove:

Type of power supply: Propane - butane

Operating pressure: 30 mbar

Nominal heat output

Power: 1300W - 2800W - 3700W

Fuel consumption

100 g/hour - 220 g/hour - 290 g/hour

Voltage supply: 12 V

Current consumption 0.65A / 2.75A / 5.4A

Weight 5.5 kg

Dimensions: 400 x 284 x 123 mm

Air flow rate (free discharge)

75 m³/hour / 155 m³/hour / 210 m³/hour

Quiescent current consumption CP plus Vario Heat - 4mA

Product features:

Voltage (V): 12

Pressure (bars): 30

Max rated heat power: 3700

Min rated heat power: 1300

Air flow (m³/h): (free discharge) 75 m³/hour / 155 m³/hour / 210 m³/hour

Width (mm): 284

Height (mm): 123

Weight (Kg): 5.5

Consumo: 100 g/hour / 220 g/hour / 290 g/hour
