Product description:

ITALTOWER MT55_PRO08 LIGHTER TOWER 4x240W MultiLED

The ITALTOWER MT55_PRO08 is a professional, robust and versatile light tower designed to effectively illuminate large outdoor areas. With a light output of 160,000 lumens provided by four 240W MultiLED projectors each, this tower offers intense and uniform illumination over an area of up to 3900 square metres.

Key Features:

Robust construction: Made with a 5.5-metre high galvanised pole, the tower is able to withstand adverse weather conditions and winds of up to 80 km/h.

Flexibility: The manual elevation system allows the height of the floodlight to be adjusted to the specific needs of the site.

Energy efficiency: MultiLED floodlights offer high energy efficiency, ensuring a long service life and reducing running costs.

Versatility: Thanks to its compact design and low weight (120 kg), the tower is easy to transport and install.

Safety: The tower is equipped with 4 stabilisers that guarantee optimal stability even on uneven ground.
