Product description:

TELECO-CONNECT - WING-LAN11 OMNIDIRECTIONAL ANTENNA

The TELECO-Connect - WING-LAN11 Omnidirectional Antenna is the perfect solution for those looking for a versatile and powerful device capable of receiving terrestrial digital signals and connecting to the 4G/5G internet network. Designed to meet the needs of motorhomes, caravans, and vehicles in motion, this antenna TELECO - WING-LAN11 features an ultra-aerodynamic shape that allows for easy installation, even on the sleek roofs of modern vehicles.

The TELECO-Connect - WING-LAN11 Omnidirectional is the ideal choice for those seeking a complete solution for receiving TV signals and internet connectivity. Thanks to its ability to support 2G-5G frequencies and its 3-axis rotation, this antenna offers easy installation, reliable reception, and a stable connection, even in the most remote areas. Perfect for motorhomes and caravans, the TELECO - WING-LAN11 is the essential accessory for an uncompromised travel experience, ensuring continuous entertainment and connectivity.

Main Features of the TELECO-Connect - WING-LAN11 Omnidirectional Antenna:

Omnidirectional Antenna for TV and Radio Signals: The TELECO- WING-LAN11 integrates an omnidirectional TV antenna for receiving DVBT/T2 digital terrestrial signals and DAB+ Radio, ensuring excellent quality viewing and listening wherever you are.

Internet Reception 2G-3G-4G-5G: Equipped with a powerful high-efficiency internet antenna, the TELECO-Connect - WING-LAN11 is compatible with mobile technologies 2G, 3G, 4G, and 5G, providing a stable and fast connection.

3-Axis Rotation: Thanks to the 3-axis rotation, the antenna TELECO allows for optimal alignment with the vehicle's roof, ensuring excellent reception, even on the aerodynamic roofs of modern motorhomes and caravans.

Easy Installation: Equipped with a special ergonomic foot, the antenna can be tilted in any direction, making installation extremely easy and fast, even on difficult surfaces.

Technologies and Frequencies of the TELECO- WING-LAN11:

Reception Frequencies of the TELECO:

TV: Channels 5-12 and 21-48 with up to 26 dB gain.

Internet: 2G-5G frequencies:

5G: 700 MHz (B28),

4G LTE: 800 MHz (B20), 900 MHz (B8),

3G UMTS: 900/1800 MHz,

GSM: 900/1800 MHz.

Gain with TELECO - WING-LAN11 Omnidirectional Amplifier:

TV (channels 5-12): 16 dB,

TV (channels 21-48): 26 dB,

Internet (4G/5G): high efficiency for a stable and fast connection.

Dimensions and Power Supply:

Diameter: 38 cm, for stable reception and excellent performance even in challenging conditions.

Height: 16.5 cm, with a compact shape that minimizes air resistance.

Weight: 1.2 kg, ensuring easy installation and transport.

Power Supply: Works on both 12 V and 24 V, compatible with most vehicles.

Package Contents of the TELECO:

Each TELECO-Connect - WING-LAN11 Omnidirectional kit includes:

1 Complete antenna with 5 m coaxial cable for DVBT/T2,

5 m SMA coaxial cable for 2G-3G-4G-5G,

3 F-connectors for easy installation and connection.

Adjustable gain amplifier with 3 outputs for 3 TVs and 1 DAB/FM Radio output, operating at 12/24 Vdc for optimal signal.

The TELECO-Connect - WING-LAN11 Omnidirectional is the antenna that revolutionizes reception and connectivity, bringing the signal wherever you go.
