

# CARRY TANK 220

## Transportable tank 220LT

**Product price:**

**600,00 € tax excluded**

### **Product description:**

CARRY TANK 220 Portable Tank 220LT

The CARRY TANK 220 is not just a simple tank, but a complete and versatile solution for transporting diesel fuel, designed to meet the needs of professionals and individuals who require a reliable and mobile solution.

Its 220-liter capacity makes it perfect for refueling vehicles, agricultural machinery, or construction equipment directly on the job site, eliminating the need to frequently visit service stations.

### **Robustness and Durability:**

Made with high-quality materials and a thickness of 5 mm, the CARRY TANK 220 is built to withstand the stresses of transport and wear over time.

The integrated lid not only protects the contents from external agents but also helps to strengthen the overall structure.

The inserts in aluminum or material compatible with diesel fuel ensure a long life and prevent corrosion.

### **Safety and Practicality:**

Safety is a top priority in the design of the CARRY TANK 220. The integrated safety valve in the filler cap prevents overpressure,

while the inline filter ensures that the fuel delivered is clean and free of impurities.

The lockable automatic nozzle prevents accidental dispensing and ensures precise and controlled refueling.

### Technical Specifications Carry tank 220:

Weight (Kg): 14

Tank capacity (L): 220

Empty weight with Pump unit: 2V 27

weight with pump unit (Kg): 24

Length (mm): 600

Height (mm): 665

Thickness: 5 mm

### Robust Structure:

Integrated lid for greater robustness and durability.

Aluminum filler cap.

Safety valve.

Inline filter.

Transfer unit.

Lockable automatic nozzle.

Slots for lifting with forklift forks (when full).

Handles for lifting when empty.

Housing for fastening straps to the base.

Inserts in aluminum or material compatible with diesel fuel.

### Fittings (Standard Configuration):

2" aluminum filler cap with integrated safety valve.

Suction filter.

12 V or 24 V pump with 40 L/min flow rate.

6 m electrical cable and clamps for battery connection.

4 m flexible fuel hose.

Automatic nozzle.
