

TECNOGEN H2700

Product description:

TECNOGEN PK150T GENERATOR SET

TECNOGEN PK150T GENSET is a three-phase genset designed to provide electrical in the event of a blackout or for professional applications. It is a versatile model, suitable for a variety of applications, including:

Emergency supply: In the event of a blackout, the TECNOGEN PK150T can supply support to homes, offices and other buildings.

Professional applications: The TECNOGEN PK150T is ideal for professional applications requiring a reliable and powerful source, such as construction sites, industry and business.

Camping: The TECNOGEN PK150T can be used to power camping equipment such as lights, refrigerators and televisions.

The TECNOGEN GENSET PK150T has a number of features that make it a high-quality product, including:

Diesel engine: The diesel engine is a reliable and powerful engine, providing high autonomy and low fuel consumption.

AVR voltage regulator: The AVR voltage regulator guarantees a stable and constant voltage, regardless of variations in the load or input voltage.

Technical characteristics TECNOGEN PK150T GENSET:

Maximum three-phase : 120 KW

Maximum three-phase : 150 KVA

Fuel: Diesel

Voltage: 400V
Engine: Perkins 1006TAG
Starter: Electric
Length: 2300 mm
Width: 780 mm
Height: 1440 mm
Weight: 1250 kg

The TECNOGEN PK150T diesel engine is a Perkins 1006TAG, rated at 121 kW. The generator has a rated power of 120 kW.

On a construction site it can be used to construction equipment such as concrete mixers, cranes and compressors. For example, the genset can be used to power many situations.

In an industry, the genset can be used to power industrial machinery, such as presses, ovens and robots. For example, the genset can be used to power a press for example.

The TECNOGEN PK150T genset is a reliable and powerful genset.

Product features:

Phase: Three phase
Maximum power three phase (KW): 120
Maximum power three phase (KVA): 150
Fuel: Diesel
Frequency (Hz): 50
Voltage (V): 400
Engine: HONDA GC160
Engine rpm (rpm): 1500
Speed governor: Electronic
Starting system: Electric
Engine capacity (cm³): 5990
Number cylinders: 6
Cooling: Water
Fuel tank capacity (L): 189
Consumption (L/h): 20.8
Running time (h): 9
Length (mm): 2300

Width (mm): 780
Height (mm): 1440
Dry weight (Kg): 1250
Silenced: No
Super silenced: No
ATS Switch device : Optional
Voltage regulator: No
Engine manufacturer: Perkins
