

TELAIR TIG 3000D COMPACT INVERTER CON ASP STANDARD

Product price:

5.495,00 € tax excluded

Product description:

TELAIR TIG 3000D INVERTER GENERATOR WITH STANDARD ASP

TELAIR TIG 3000D vehicular generator of 2,8 KW is a new generation single-phase current generator of 230 V with voltage regulator with **inverter** technology and powered by a diesel engine.

A state-of-the-art electronic speed control system has enabled the TELAIR TIG3000D to achieve an extremely low **noise** level combined with very low average diesel consumption. The voltage regulator with inverter technology allows the TELAIR TIG 3000D to generate a very stable voltage with a pure sine wave and also makes possible the coupling of 2 TELAIR TIG 3000D in parallel thus doubling the supplied power.

The control panel with inverter technology allows the TELAIR TIG3000D to generate a very stable voltage with a pure sine wave.

The remote control panel included in the TELAIR TIG 3000D has a modern design and is equipped with a graphic display, it provides the user with all the information related to the operation of the vehicular generator, control of the oil level, operating temperature and current consumption with automatic shutdown of the engine in case of non-standard values.

It allows to select the operation of the TELAIR TIG 3000D between manual and automatic (in case of use also as a battery charger) and it is also equipped with a BOOST key that can be used when a temporary power increase is needed for a very high electric load. It is also equipped with a special interface that will allow in the future, to use the new Teleco-Hub App to remotely turn on, turn off and control the 3000D via an iOS or Android smartphone.

TECHNICAL SPECIFICATIONS TELAIR TIG 3000D

Phase Type: Single Phase

Maximum Power: 2.7 KW
Motor RPM: 2400 - 3200 rpm
Voltage: 230 V
Frequency: 50 Hz
Motor: HATZ 1B30 V
Fuel: Diesel
Start: Electric
Voltage Regulator: Inverter
Fuel Consumption: 0.9 lt/h
Acoustic pressure: 56 - 59 dBA @ 7m
Width: 410 mm
Length: 585 mm
Height: 465 mm
Weight: 87 Kg

If you are looking for a vehicular generator similar to TELAIR TIG 3000D then we suggest you to browse our wide catalog of vehicular-generators.

Images and technical data are not binding.

Product features:

Phase: Single phase
Maximum power single phase (KW): 2.7
Fuel: Diesel
Frequency (Hz): 50
Voltage (V): 230
Engine: Hatz Hatz 1B20V
Engine rpm (rpm): 2400 - 3200
Starting system: Electric
Consumption (L/h): 0.9
Acoustic pressure: 56 ÷ 59 dB(A) at 7 m
Length (mm): 585
Width (mm): 410
Height (mm): 465
Dry weight (Kg): 87
Silenced: Yes
Super silenced: Yes
Product type: Generator
Voltage regulator: Inverter
Engine manufacturer: Hatz
