Product description:

TELAIR ENERGY 2510D GENERATOR WITH AUTOMATIC CONTROL PANEL

TELAIR ENERGY 2510D vehicular generator with 2.2 KW automatic control panel, single-phase **super-silenced** generator with very low fuel consumption with diesel powered Hatz engine.

Can be installed by connecting directly to the diesel vehicle's fuel tank, thus eliminating any auxiliary tanks. The TELAIR ENERGY 2510D can be equipped with a fully automatic electronic starting system with remote control panel with 5 meters of cable equipped with: total and partial hours counter, engine temperature control lights, oil and diesel level.

The automatic control panel allows the control in automatic motion of the generator simplifying the operations on the panel.

The TELAIR ENERGY 2510D also has a built-in battery charger 12 V / 10 A. Removable drawer bottom for easy maintenance of the TELAIR ENERGY 2510D.

The TELAIR ENERGY 2510D has a design able to integrate itself to the perfection on every type of motorhome both in its external shape and with every particular of the inside furnishing. A continuous technical innovation fruit of a long experience, renewed and projected into the future by the enthusiasm, imagination and skills of a team of young designers.

A choice of materials made according to strict tests and quality controls to ensure aesthetic inalterability and durability of the vehicular generator TELAIR. To use an air conditioner or household appliances such as coffee machines or toasters you need a reliable source of power and this new diesel-powered generator may be the perfect solution.

Modern electronic variable speed management lowers the noise level as well as diesel consumption. In addition, the unit is contained in a metal case that is soundproofed with highly insulating materials, so that the noise level is further reduced and operation is possible even when there are other vehicles in the vicinity. The sturdy metal structure is equipped with an

extractable drawer that allows easy access to the generator to carry out mechanical maintenance operations in a practical and safe manner.

TECHNICAL CHARACTERISTICS TELAIR ENERGY 2510D

Phase Type: Single Phase

Maximum Power: 3.0 KW

Voltage: 230 V

Frequency: 50 Hz

Motor: HATZ 1B30 V

Fuel: Diesel

Start: Electric

Fuel Consumption: 1. 3 lt/h

Acoustic pressure: 63 dBA @ 7m

Width: 300 mm

Length: 690 mm

Height: 410 mm

Weight: 110 Kg

Product features:

Phase: Single phase

Maximum power single phase (KW): 3

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Hatz Hatz 1B20V

Starting system: Electric

Alternator: Synchronous

Poles: 2

Consumption (L/h): 1.3

Acoustic pressure: 63 dB(A) at 7 m

Length (mm): 300

Width (mm): 690

Height (mm): 410

Dry weight (Kg): 110

Silenced: Yes

Super silenced: Yes

Product type: Generator
Voltage regulator: No
Engine manufacturer: Hatz
