Product description:

BINDA ELPTP 180 HYDRAULIC TEST PUMP

BINDA ELPTP 180 is an electric hydraulic test pump, capable of delivering a maximum power of 5W for a flow rate of 13 l/min.

BINDA ELPTP 180 hydraulic test pumps are complete with pressure regulator, pressure gauge, coil and shut-off and drain valve.

BINDA ELPTP 180 is designed to meet the needs of professionals. In fact, it must be robust and require little maintenance. In addition, it must have the following features.

- Ideal for testing and pressurizing, transferring and filling operations .
- Can pump water and non-acidic liquids, such as antifreeze fluids .
- Hydraulic system test pump results with a high working pressure, up to 180 bar, thanks to the piston system
- Sturdy construction: oversized motor and use of anti-corrosive materials

Equipped with a suction filter, this hydraulic test pump can pump water and non-acid solutions (antifreeze). It is also protected and performs testing and loading.

TECHNICAL FEATURES ELPTP 180 ELECTRIC POWER PUMP

Diameter: 3/8"

Pressure (bar): 180

Maximum flow (Lt/min): 13

Voltage (V): 400

Power (kW): 5

Weight: 66 Kg

Are you looking for an electric pump with different characteristics? Here you can find the area dedicated to BINDA electric pumps or other specialized brands.
