

HONDA HS 750 EMA Snowthrower Single Stage with Wheels

Product description:

HONDA snowplow HS750EMA single stage 3,9KW

Honda HS750EMA is a single-stage snowplow, made of rubber, the tiller can make contact with the ground and collect every last snowflake, **capable of delivering a power of 3,9KW**. No extra work. The Honda HS750EMA is ideal for shoveling snow quickly and easily around the house, on the deck, in the garden, on rough or smooth surfaces. Every time, the finish is professional grade.

The Honda HS750EMA 3,9KW single-stage snow blowers are best for use on driveways and home entrances. Not only are they quiet and compact, but they're also capable of shoveling snow up to a foot high.

As it touches the ground, the cutter literally helps propel the single-stage snowplow forward making it more of a walk in the snow than hard work.

Throwing snow a distance of 10 meters requires a lot of effort and many people with shovels; again, the Honda HS750EMA single-stage snowplow with a **GX 190 4-stroke engine** capable of delivering 3,9KW will get the job done in no time. This engine is as reliable as it is powerful and is designed to produce low noise, vibration and emissions. And it has no problems with cold starting either. Thus, this snow blower is the easiest to use. And since it consumes very little power, it will turn out to be an advantageous choice for your pocket as well.

The day you buy a Honda HS750EMA is the day you invest your money in the best product available on the market.

That's why we offer a manufacturer's warranty that gives you the best coverage possible. With this warranty covering both parts and labor, we're always there for you. The warranty maintains the same value throughout its lifetime. That means the last day of coverage is just as valuable as the first: as stable and reliable as our snowplow.
