

LUXTOWER LUX S10

Product price:

3.535,00 € tax excluded

Product description:

LUXTOWER LUX S10 6x50 W LED

LUXTOWER LUX S10 is a compact and easily transportable tower luminaire that can effectively illuminate areas of up to 1900 m² with low environmental impact.

The LUXTOWER LUX S10 tower is equipped with a 4,5 m vertical telescopic pole with hydraulic lifting and 6x50 W LED floodlights with high luminous efficiency.

The LUXTOWER LUX S10 is a mobile lighting tower without a generator with six 650 W multi-LED floodlights, a vertical telescopic pole and a manual lifting system. An external power source, such as a generator or the main grid, is therefore required to power the lighting towers individually or in series. Completely silent, it requires no maintenance, has no fuel costs and is a zero-emission, entirely sustainable machine.

Thanks to its setup on a tow truck, it can be manoeuvred with ease.

The LUXTOWER LUX S10 lighting tower is one of the brilliant results of a development path characterised by the application of innovative LED technology. The new LED machines are ideal for the rental sector and are characterised by low power consumption, compactness, robustness and ease of use.

Main technical characteristics of the LUXTOWER LUX S10 lighting tower:

Phase type: Single-phase

Voltage: 230 V

Lamp type: LED

Lamps: 6 x 50 W

Telescopic pole: Vertical

Illuminated area: 1900 m²

Lift: Manual

Maximum height: 4.5 m

Pole rotation: 360

Dimensions open: 2053 x 2363 x 4332 mm

Size closed: 403 x 403 x 1440 mm

Transportability: Fixed

Wind stability: 110 Km/h

Weight: 83 Kg

Unlike metal halide lamps, LED floodlights guarantee:

- Instant lighting, with no waiting time for cooling
- Fuel savings of up to 60% compared to incandescent systems
- Five times longer lamp life than conventional ones
- Low environmental impact with CO2 reductions of around 50%

The LUXTOWER LUX S10 is the ideal solution for the following outdoor applications

- Construction sites
- Events and exhibitions
- Road maintenance
- Rental companies
- Industrial activities

Product features:

Phase: Single phase

Frequency (Hz): 50

Voltage (V): 230

Type of lamps: LED

Lamps: 6 x 50 W

Telescopic pole: Vertical

Illuminated area (m²): 1900

Lifting System: Manual lifting system

Maximum height (m): 4.5

Mast rotation: 360°

Open size (mm): 2053 x 2363 x 4332

Length closed (mm): 403

Width closed (mm): 403

Height closed (mm): 1440

With generator / Without generator: Without generator

Transportability: Stationary

Stability to wind (Km/h): 110

Product type: Light tower

Weight (Kg): 83
