Product description:

BIEMMEDUE DOMESTIC DEHUMIDIFIER DR 80

The BM2 DR80 is a domestic dehumidifier that offers an efficient and convenient solution for controlling humidity inside homes. Equipped with a hermetic piston compressor, this device ensures reliable and silent operation. Its ease of use is guaranteed by the power cord with included plug and hooks for cable winding, allowing for quick and uncomplicated installation.

One of the distinctive features of the BM2 DR80 Dehumidifier is its water collection tank, which allows for the collection of excess moisture extracted from the air. This process occurs efficiently and safely, without emitting any pollutants, thanks to the use of a safe and environmentally friendly refrigerant in the hermetic refrigeration circuit.

The BM2 DR80 is designed to be fully automatic, eliminating the need for manual intervention and minimizing required maintenance. The built-in hygostat allows for easy setting of the desired humidity level in the environment, ensuring optimal control.

With its four plastic wheels, the BM2 DR80 Dehumidifier is easily transportable and can be positioned in different rooms of the house as needed. A warning light alerts when the water collection tank is full, ensuring effective management of the dehumidification process.

The technical specifications of the BM2 DR80 include a dehumidification capacity of 16 liters in 24 hours, with an air flow rate of 250 m³/h. The capacity of the collection tank is 5.5 liters, allowing for effective management of humidity even in medium-sized spaces.

With a power consumption of 260 W and R1234YF refrigerant, the BM2 DR80 offers efficient and environmentally friendly performance. Its compact dimensions, with a length of 320 mm, a width of 355 mm, and a height of 700 mm, make it suitable for use in various domestic settings.

In summary, the BM2 DR80 is a versatile and reliable domestic dehumidifier, ideal for ensuring healthy and comfortable air inside homes, with a range of features and optimal performance to meet consumer needs.

Technical Specifications BM2 DR80:

Phase type: Single-phase

Voltage: 230 V

Frequency: 50 Hz

Dehumidifying capacity: 16 l/24h

Air flow rate: 250 m³/h

Tank Capacity: 5.5 L

Operating Range: 7÷35, 35÷100

Absorbed Electrical Power: 260 W

Refrigerant: R1234YF

Length: 320 mm

Width: 355 mm

Height: 700 mm

Net weight: 23 kg

BM2 DR80

Product features:

Phase: Single phase

Frequency (Hz): 50

Voltage (V): 230

Air flow (m³/h): 300

Power consumption (W): 250

Length (mm): 320

Width (mm): 355

Height (mm): 700

Dry weight (Kg): 23

Type of climate control: Dehumidifier
Power of dehumidification (L/day): 16 Lt./24h
Container capacity (L): 5,5
Power consumption (W): 260
Coolant: R1234YF
Working range (°C / %): 7÷35, 35÷100
