## Product description:

TELECO VOYAGER G365 SATELLITE ANTENNA 65 cm

TELECO VOYAGER G365 is a satellite antenna equipped with a graduated scale on the pole that allows you to set the pointing inclination of the dish very quickly, while remaining inside the vehicle.

To correctly set the inclination of the TELECO VOYAGER G365 satellite antenna it is important that the vehicle is well leveled (in bubble), otherwise you need to add or subtract to the value of the inclination of the dish the height difference of the vehicle.

After setting the inclination, simply turn the TELECO VOYAGER G365 satellite antenna to the south by means of the pole inside and, while watching the TV, optimize the pointing.

The TELECO satellite antenna has the transmission capabilities managed by the geostationary satellite of reference placed at 13 degrees East which ensures a wide coverage that originates in central Europe.

TELECO VOYAGER G365 has a directly proportional correlation between its diameter and the signal strength at the edges of the "footprint".

Tendentially it is not recommended to install an antenna with an excessively large diameter on a motorhome, which is why the standard is around 80 cm in diameter.

The coverage thanks to the satellite antenna is very wide starting from the center of Europe. The signal degrades away from the center of Europe. As you can see in the map with TELECO VOYAGER G365 you can receive the signal of HotBird (which transmits SKY and TIVUSAT) practically throughout Europe, the north of Morocco, Algeria, Tunisia giving you satellite coverage in any place you decide to stay.

TECHNICAL FEATURES TELECO VOYAGER G365

Type of orientation: Manual  
Type of attachment: Wall bracket  
Antenna diameter: 650 mm  
Bracket size: 33 cm, 52 cm  
Length: 650 mm  
Width: 40 mm  
Height: 650 mm  
Weight: 9.2 kg

**Product features:**

Diameter (Ø): 65 cm  
Length closed (mm): 880  
Width closed (mm): 650  
Height closed (mm): 180  
Length (mm): 400  
Width (mm): 650  
Height (mm): 650  
Type of coupling head: Wall bracket  
Product type: Satellite Antenna  
Antenna orientation: Manual  
Weight (Kg): 9.2
