

VTE PAGURO 3SY Marine Generator 3 kVA

Product price:

5.475,00 € tax excluded

Product description:

Super-silenced 3 KVA VTE PAGURO 3SY marine generator

Generator 3 KVA VTE PAGURO 3SY Single-phase , with Yanmar engine powered by diesel 3000 rpm and water cooled with stainless steel water/air heat exchanger.

All parts in contact with sea water are made of 316 L stainless steel.

Water cooling and double anti-vibration system keep vibrations to a minimum, making the VTE PAGURO 3SY **super-silenced** marine generator one of the lowest noise emission marine generators in its class.

The compact and space-saving VTE PAGURO 3SY marine generator is suitable for use on small boats, ready to give you all the power you need in complete peace of mind.

Motor

The Yanmar diesel-powered engine makes the VTE PAGURO 3SY marine generator efficient and reliable.

Designed with stainless steel water/air heat exchanger.

Alternator

The PAGURO 3SY generator alternator is synchronous, brushless, with **capacitor voltage regulator** and with class H insulation. Water-cooled through an AISI 316 L stainless steel heat exchanger. The capacitor voltage regulator avoids voltage fluctuations and does not allow to burn sensitive electronic devices such as pc's, smartphones or household appliances in general.

Included in the PAGURO 3SY generator alternator is the battery charger for the dedicated 12 V / 8 A starter battery.

Soundproofing capsule and double anti-vibration system

The reinforced fiberglass capsule with composite layering and the high-density soundproofing material coating make this PAGURO 3SY marine generator one of the most silent compared to its competitors.

The capsule allows installation even in narrow spaces and this is due to its composition: two upper and one lower parts.

The **double anti-vibration system**, internal with 4 soft supports and external with 4 semi-elastic supports, finally makes the PAGURO 3SY marine generator stable even in less calm waters and silenced, so you can enjoy sailing without further worries.

If you are looking for another kind of product you can check the entire catalog of marine generators.

Product features:

Phase: Single phase

Continuous power single phase (KW): 3

Continuous power single phase (KVA): 3

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Yanmar L70N5

Engine rpm (rpm): 3000

Starting system: Electric

Number cylinders: 1

Cooling: Heat exchanger air/water

Alternator: Synchronous, brushless

Consumption (L/h): 0.35

Acoustic pressure: 52 dB(A)

Length (mm): 615

Width (mm): 429

Height (mm): 525

Dry weight (Kg): 90

Silenced: Yes

Super silenced: Yes

Product type: Generator

Engine manufacturer: Yanmar
