

FISCHER PANDA 15000x Single-phase Sea Generating Set 15 kVA 12.7 kW

Product price:

17.732,00 € tax excluded

Product description:

FISCHER PANDA 15000X SUPERSILENCED 15 KVA MARINE GENERATOR

Generator Marine Fischer Panda 15000x single phase 15 KVA with 3000 rpm motor. The Fischer Panda 15000x è marine generator is designed with a soundproof cabin that makes it **supersilenced**. The marine generator Fischer Panda 15000x è built with a Kubota diesel-powered engine. The alternator of the Fischer Panda 15000x marine generator is a 2-pole alternator with insulation class H and an AVR voltage regulator. The AVR voltage regulator allows you to stabilize any voltage fluctuations that may damage your sensitive connected devices. With its compact size and low weight, the Fischer Panda 15000x marine generator is also suitable for installation on small boats.

xControl

This digital device replaces the existing VCS control and P6+ panel on marine asynchronous generators. The Fischer Panda 15000x marine generator is world-renowned and has been in operation for twenty-five years.

In the era of modern data and energy communication systems, it is becoming increasingly important that the Fischer Panda 15000x marine generator is able to integrate with existing control and regulation systems. With the "xControl", an extremely powerful and easy-to-use control system for the Fischer Panda 15000x marine generator is offered:

- "Plug & Play" - reduced installation effort
- Modular system for easy expansion
- Recording and display of operating data
- Full event logging - long-term service
- Digital panel - easy to use and multilingual
- Communication interface

- Self-test of all functions - safe and reliable system
- Automatic start-up
- Quick control - stable energy supply

Generator Control - Servo (GC-S)

- Powerful, centralized generator control unit
- Easy to install and IP67 enclosure
- Automatic integration with box and connection panel
- One control for both 12V and 24V starter systems
- Connects to other external communication systems via expansion modules
- 100% temperature control

Connection Box - Generator (CB-G)

- Easy "Plug & Play" installation with panel and unit
- Connections for external components
- Splash water protection for connections

Control Panel - Generator (CP-G)

- Digital display
 - Easy to use menu structure
 - Displays current, voltage, frequency and other performance data
 - Multilingual
 - Diagnostic and service modes
- ; diagnostics and service
- Possibility of application on more panels

If you are looking for a marine generator set like Fischer Panda 15000x but with different technical features then you can browse the entire catalog of marine generators.

Images and technical data are not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 12.7

Continuous power single phase (KW): 11.4

Maximum power single phase (KVA): 15

Continuous power single phase (KVA): 13.8

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230
Engine: Kubota D902
Engine rpm (rpm): 3000
Speed governor: Electronic
Starting system: Elettrico
Engine capacity (cm³): 898
Number cylinders: 3
Cooling: Water
Poles: 2
Motor insulation class: H
Length (mm): 740
Width (mm): 480
Height (mm): 600
Dry weight (Kg): 248
Silenced: Yes
Super silenced: Yes
Product type: Generator
Voltage regulator: AVR
Engine manufacturer: Kubota
