

FISCHER PANDA 7,5-4 PMS Single-phase Sea Generating Set 1500 rpm 7.6 kVA

Product description:

AC Marine Generators 50 Hz / 1500 rpm (PMS-HD)

The Heavy Duty (HD) slow runners. Based on the robust Panda marine generator, these heavy duty versions are enclosed within a super silent sound insulated capsule.

Panda Marine Generator PMS-HD The heavy duty slow runners. Based on the robust Panda marine generator, these heavy duty versions (HD) operate at 1500 rpm / 50Hz.

The PMS-HD generator is enclosed within a super silent sound insulated capsule. The generators are heavier than the standard PMS generators.

They use a heavy duty diesel engine and because they run at 1500 rpm, have a 4 wire coil which also means the alternator has a heavier 4 pole construction.

The heavy construction and low operating rpm result in a durable and quiet generating set.

Not binding images and data.

Product features:

Phase: Single phase

Maximum power single phase (KW): 6.5

Continuous power single phase (KW): 5.8

Maximum power single phase (KVA): 7.6

Continuous power single phase (KVA): 6.8

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Kubota D1105
Engine rpm (rpm): 1500
Speed governor: Electronic
Starting system: Electric
Engine capacity (cm³): 1123
Number cylinders: 3
Cooling: Water
Poles: 4
Motor insulation class: H
Length (mm): 830
Width (mm): 515
Height (mm): 627
Dry weight (Kg): 278
Silenced: Yes
Super silenced: Yes
Product type: Generator
Voltage regulator: Capacitor
Engine manufacturer: Kubota
